

Mission Research Project

Due: February 28th

This is a note to help you complete your mission research project. Your paper should be at least a page. It will have to be typed on a google doc and turned into google classroom. It must be written in an essay format (paragraph form)!! It must also be written in your OWN words!!

You must answer all of the questions but you may also include more information if you would like! Your bibliography needs to be a separate page. You must include at least 3 different sources. You may use online sources. We will review how to write the sources in class.

We will also be using your research paper to create a presentation on Google Slides during class. The Google Slides presentation will also be included as part of your grade.

We will be making the creative portion of this project in class.

Here is a link to the google doc of research questions:
