Navigators 	Unit based around the subject of Earth and beyond, with a key focus on science and history . Pupils learn about the Earth, Sun and Moon and their relationship to each other, before finding out more about space exploration and communication.	Based on the creative process of invention and design, with a leaning towards history and design technology . Pupils will look at important inventions over time, before moving on to learning about more current issues such as patenting and copyright.	Based on North and Central America with a key focus on geography and History. It begins with the location of countries and states before learning about the discovery of America and the Native American people. Pupils will also study weather and climate, as well as human and physical features. The unit ends with an explanation of 'The American Dream', whilst examining the values tolerance and freedom.	Based on issues of discrimination, particularly apartheid and anti-Semitism, with a key subject focus on history . Pupils will learn about the factors that contribute towards discrimination and why different groups have been stereotyped and, as a result, persecution.	Based around invaders with a key focus on history . It begins by looking at the concept of invasion, before focusing especially on the Romans, learning about important Roman figures and their reasons for invading other countries.	Based on conflicts past and present, with a key focus on history and geography . Pupils will learn about the root causes of war and have an understanding of its impact, focusing on the two World Wars in particular. They will also learn about civil wars and pacifism.	Key focus on geography . It begins with pupils learning about different types of beans, how and where beans are grown and their nutritional value. They go on to look at beans as a source of energy, before moving on to learn about energy sources generally, both renewable and non-renewable. A business enterprise element enables pupils to create and sell bean smoot.	Geography - focused with sustainability and eco literacy at its heart. This project-based theme involves pupils applying their learning about the global environmental issues of waste and pollution by creating a board game, which is both educational and fun. The pupils will work in groups to research, design and produce their board game, after which they will present and demonstrate it to the class.
