

## **COVID-19 Testing**

The Eastchester School District is not equipped to conduct COVID-19 testing in the event of a large scale outbreak. The decision to be tested will be determined by a student or staff member's healthcare provider or the department of health. The District has a long standing relationship with the WCDOH and in the event testing is required, we will defer to them for any required or relevant information. Referrals for testing will be made by the District Health Office or the WCDOH to local testing sites and hospitals. For a listing of currently available sites please click [here](#).
