

## Option 1 Additional Sanctuary Seating

It is becoming more obvious each week that we are in need of more sanctuary seating. The need to add onto our sanctuary is evident and how best to do that is between Option 1 and Option 2. Choosing Option 1 would be to add a wing that would seat an additional 8 – 10 pews, which would give us an additional seating capacity of 50 – 70. This addition, estimated to be around 25' x 50' would help with our overflow on busy Sabbaths and give us room for growth going forward. It would not change the current structure of our sanctuary and all pews would be angled (see picture) to face the pulpit. Note: Drawing is not to scale and is only intended to give you some idea of what it would look like.

The estimated price of this option would be \$250,000.

The current area that has been excavated would be for additional parking.
