Sunstate Cleaning Systems (561) 795-0095 offers the highest quality exterior cleaning and brick paver sealing restoration contractor services in Palm Beach & South Florida. Including roof cleaning, pressure washing, and soft washing services.

Soft Wash Roof & Exterior Cleaning and Paver Sealing

Sunstate Cleaning is a professional roof/exterior cleaning and paver restoration company servicing Palm Beach County since 1997. Unlike other companies, we are very experienced in this industry and we provide detailed cleanings and excellent customer service. We have many thousands of residential customers who refer our services to friends/neighbors and we work with some of the top Property Mgmt companies and HOA's to keep entire developments spotless

Services we offer:

- Roof Cleaning (100% Safe for your roof, soft wash cleaning NOT damaging pressure washing)
- Concrete, pavers, driveways, walkways, pool decks, house exterior, screen enclosure, paver sealing and restoration

We use only the highest quality 2 part commercial grade sealer, as well as non-film forming impregnating sealers on pavers, travertine, coquina, marble, Chicago brick, ect. Using high quality sealer is very important. We have had customers who used other companies that were “cheaper” but it is very expensive \$\$\$ to fix a bad seal job once it is done. Paver Sealing is a very technical specific service that requires many years of experience to know which products

work on which surface and how best to apply. Proper Sealing is NOT a diy project and should not be left to a handyman. Sealer should NEVER be applied over previously sealed pavers that have a ‘cloudy or milky’ appearance (caused by a bad seal job) as it will only compound the problem and won’t fix it – bad sealer needs to be professionally removed prior to re-sealing with the correct product. We do residential driveways, pool decks, patios, walls, as

well as commercial pool decks and walkways for condo complexes and HOA’s.
