1. Meta-questions

- What would Professor Andrew do in my situation?
- What would Professor Dylan do in my situation?
- What would Elon do in my situation?
- What would Top G do in my situation?

I don't get results, 5 weeks gone by.

I should:

- Look at profile review chats and ask in chats what to post (I don't know how to tell people about my services properly)
- Post on social media about my services until I get 100 followers
- Start outreaching
- Get clients and provide results for them

Chaos stopped me from moving, I used to plan my day but not accurately enough.

There's not much to think about.
