

Grades 6-12 Mathematics Progression

Course Flowchart 2025-2026

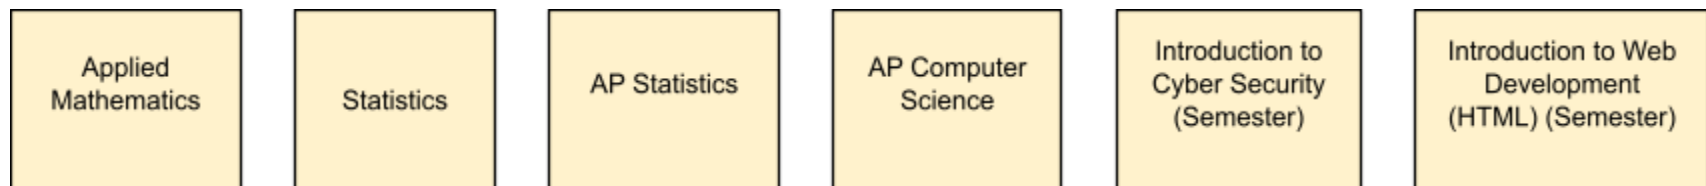

Instructions: Locate student's current course and proceed to follow the arrows towards the right.

If there are two options, the student will receive a recommendation.

Solid lines indicate common course progressions. Dotted lines indicate less common course progressions.

Math High School Elective Options

Advancement Options

Option 1	Option 2
Students can take Geometry and Algebra 2 during the same school year.	Students can take an approved summer Geometry course and demonstrate mastery on an MHS assessment.
