

## VERSES:

[Verse 1: Steph as **Jacques Fagalina**]

Faggots are gonna burn in hell, ah  
Sucking dick and cock, you like that don't cha  
Sodomizing is why I am flaming  
Came out to the fam, they shamed me  
Poppers and condoms, my hole is sore  
Come down to hell and I'll give you more

[Verse 2: Whorechata as **Whorechata**]

Da boys will never see me dick it cause I save it for HIM  
I want the pearly gates of heaven to fulfill me with sin  
You'll never flick the bean  
Without a shiny ring  
I saw him in the alley and I needed to sit  
And then he came all on the roof of my convertible clit  
Like gowns I'm gettin' it stoned, but least I'm gettin' boned

[Verse 3:Fleur as **Miss Stress**]

All my girls call me a homewreckahh  
All the husbands fall in line cause I am very so hot  
Adultery is my number one, absolutely  
Fleur specialises in infidelity  
Your wife never has to know you find me sexy  
Just go out of town, and let the sparks fly

[Verse 4: Wren as **Jack The Slayer**] In a bad british accent\*

Hangin' 'round London-town, 1880's  
Downin' Scotch and Gin and fuckin' ladies  
Bees knees down here, Dahmer wants my babies  
And he wants to eat those babies, wanker's crazy  
In prostitute blood, I'm bathin'  
The firey pits of hell I entered for my misbehavin'  
Fuck me is it scathin'

## CHOREO:

Faggots are gonna burn in hell, yeah  
Sucking dick and cock, you like that don't cha  
Sodomizing is why I am flaming  
Came out to the fam, they shamed me  
Poppers and condoms, my hole is sore  
Come down to hell and I'll give you more

*Before Steph's verse begins, the four of them walk running as if they are on fire for being in hell. As the verse begins Steph steps to the front of everyone and starts. Steph points behind him at the first line because they are all fags and burning in hell. They all then flip her off because wtf. For the next line, Steph gets on her knees and makes some filthy hand gestures to the air, and turns from the "air" and winks. The others then look disgusted and proceed to mimic Steph's choreo for the rest of this. Steph then starts to fan herself with her hands cause she is HOT. Steph then runs up to her groupmates and comes out to them and they shame her by making the shame finger motion. Steph then snorts her finger and bends down aching in pain as she is sore. As she is aching she makes a come here motion, and she falls to the floor purposefully with her ass and she thrusts a little before crawling back to the others.*

*Whorechata steps up to the front of the stage. She starts by covering her private parts and blushing as she is horny in love. She then gets on her knees and prays to the sky with the group motivating her. Steph then comes up to Chata holding a can of beans and flicks it in front of Chata. Chata then holds up their barren ring finger emphasizing their loneliness. The group repeats this motion with her. Chata then looks around her before she takes a seat. She then*

*spreads her legs open and looks very much in pleasure. Chata then emphasizes how sparkly their outfit is with them then thrusting the air as their verse ends.*

*Fleur's verse starts. Fleur crawls slowly and seductively on the ground, making sure everything is hitting the beat. Fleur gets up and the rest line up and fall one by one because of how hot Fleur is. The others stay on the ground before getting up Fleur then pats her puss squatting to the ground filthily while doing so. Fleur then shhhs her mouth because she can keep secrets. She then motions for someone to run away with her to ,which the group rolls their eyes, and she then does a sparkler reveal as sparkles of fireworks fly in the air.*

*Wren's terrible British voice starts, so everyone has their ears covered in fear of how grossed out they are. Wren starts by rapping their lyrics and mimicking drinking motions with their hands. Wren then fists the air to emphasize the last part of that line. Wren puts their hands on their knees and spreads their legs open and chomps the air in a frisky sensual motion. Wren acts like they are holding a baby, and they then act protective of it as Dahmer is crazy. Wren then scrubs themselves before they enter the gates of hell. Lastly, Wren looks around and the others come up to her as she asks if it's scathin and they all nod and everyone passes out from heat exhaustion.*
