Please explain why you are applying for this scholarship.

I would like to receive this scholarship for multiple reasons. I have worked very hard to make sure I can thrive academically and get into the colleges that I want. I want to be able to go to college and focus on school and opportunities that arise during college and not have to be overly concerned about how much debt I will be in when I graduate. I plan to put this money toward tuition because my parents have both worked very hard to get me to where I am today; however, they do not have enough money to cover the entirety of college.

I am going into a career of service and would love to be able to flourish after I finish college and spend my time helping those in need. I have chosen education as one of my options because I grew up in my mother's classroom and watched the growth in the students and how rewarded she has felt through the years of fostering that growth. I chose health administration as another option because I spent time watching my grandfather work at the local hospital; he always took me around and I felt inspired.

If I do not have to worry about being in a lot of debt then I could spend more time helping the community through my chosen career and volunteer opportunities. Receiving this scholarship would bring me closer to achieving these goals and making a difference in the lives of those I will serve.
