Airdrie, Alberta, Canada

ishiohara@gmail.com

Senior Software Developer with 12+ years in analysis, design, development, testing and implementing software applications. Experienced in building high performance, scalable and reliable applications.

Very focused on writing clean and well-designed code on any project assigned to. A team player and able to adapt to any developer, analyst, QA or support engineers throughout the product lifecycle to produce high-quality, user-friendly, and bug-free software.

TECHNICAL PROFICIENCIES

Java, Microservices, REST, React, Git, HTML, CSS, Javascript, AWS, Relational databases and NoSQL databases.

WORK EXPERIENCE

Senior Software Developer, SkipTheDishes - *Aug/2018 - Present - Remote, Canada*
- SkipTheDishes is a food delivery service provider that deals with hundreds of thousands of customers, couriers and restaurants daily.
- Leading projects
- Helping new team members
- On-call experience
- Tech Stack:
    - Java and React
    - Microservices
    - AWS

- ○ MySQL / Postgres

Full Stack Developer, MATERA Systems - *May/2011 - July/2018* - Maringá, Paraná, Brazil

Technologies and experiences: Java , REST, Microservices, NoSQL (Cassandra DB and ElasticSearch), React/Redux , Scrum

⇢ Java and React Developer

⇢ Lead a small team with 2 developers. Outcomes:
- ○ Success project
- ○ Compliments from client (Project Manager) and Dev team

⇢ Chosen to be a tutor of a new employee, helping him to ramp up, during 3 months

⇢ Conducting an internal coding dojo algorithms and clean code

⇢ Worked in highly available and scalable projects for big American TV/Cable companies.

⇢ In 2013, I taught a small course teaching Spring, JPA and EJB

⇢ In 2012, I created booklets related to JPA, Hibernate and EJB to help new employees

Full Stack Developer, Freelance - *Jun/2016 - Jan/2018* - Remote

Technologies: Angular, NodeJS, Java

⇢ Working remotely as a freelancer to a client, maintaining and implementing new features to a website that the purpose is to provide challenges and aids to lose weight, competing with others users. There are 3 projects that I am working on for this client: one of them is using **NodeJS and AngularJS**, another one using **Angular 4** and other with **Ionic 1** (mobile app).

⇢ 112 hours worked remotely to an American client, maintaining and implementing new features in a **NodeJS and AngularJS** website that manage workspaces in Denver, CO.

⇢ 280 hours worked remotely to a client implementing a software to manage consultants. We use **Java** in the backend and **AngularJS** in the frontend.

System Analyst, Tecnospeed TI - *Jan/2010 - May/2011* - Maringá, Paraná, Brazil

Technologies: Delphi, Scrum

⇢ As a backend developer, I worked with Delphi, using Scrum, and developing systems and components for other developers to electronic invoicing (brazilian stuff)

System Analyst, Buscatech- *Feb/2009 - Dec/2009* - Maringá, Paraná, Brazil

Technologies: Delphi

⇢ Full time developer with Delphi, doing maintenance and implementing a new ERP with 2 other developers. In this job, I had the responsibility to maintain from the database to the client side.

Intern, Produsys - *May/2008 - Feb/2009* - Maringá, Paraná, Brazil

Technologies: Delphi

⇢ This was my first job, when I was in my second year of graduation. I had an opportunity to work in many kinds of software with Delphi "language". In this job, I've done a lot of maintenance and created a lot of new features and reports for different clients. This company is focused on ERP projects.

EDUCATION

2007-2010 Bachelor's Degree in Information Systems, University Center of Maringa
