

Update – June 2025

The Neighbourhood Plan Working Party and latterly the Steering Group ([SG](#)) have been focused on:

- Extending the survey (handed out at consultations to the whole village) to get a fuller view of the villagers' views on the village, support for a CNP and its Vision Statement.
- Identifying more volunteers to help develop the CNP and form the Steering Group, leading to the election of the Steering Group on the 25th Feb.
- Engaging a landscape consultant to prepare the Landscape Character and Sensitivity Assessment (LCSA), which was completed at the end of March.
- Applying for (and being granted) a Locality grant to pay for the specialist consultants to create the LCSA and website.
- Analysis of the current housing age and location.

What happens next?

- Share the LCSA with the village.
- The Steering Group will meet to agree a plan to complete the next stage actions towards the creation of the CNP.
