

Shadows of London Chapter 2 and 3 Dress Up

Note: All dress up stages in Chapter 2 and 3 have the [Afternoon Tea] Style tag

General tips:

- For your major Fashion Labs, focus on accessories, hair, dress in that order. Ignore the other categories until these three are maxed.
- Use as many pieces from the main sets as possible, prioritising higher stars. You can borrow Jerry pieces that aren't Lucky Point Chest specific. You can also purchase them using nuts.
- These sets are only the ones that are available currently. If you have high star pieces from past sets that match two or three tags then you can use those as well.
- You may need to play easier books while you level up your Fashion Labs and relics.

After a bit of testing:

- For the supplementary pieces, a piece matching both style tags and a piece matching one style tag and scene tag will give the same score at the same star level.
- There is no SoL book bonus so pieces from other books will do just as well if they match the same number of tags

Grand/Charming:

Best relics:

- Vane from The Perfect Storm
- Priscilla from Shadows of London

Main sets:

Name	Book	Type
