ChatGPT Prompts

Use these to make language objective writing easier!

To use:

1. Open up CHATGPT.
2. Highlight one of the prompts below and paste it into the chat.
3. Add in any additional information needed.
4. Ta da! You can just created language objectives to guide your lesson all in a matter of seconds.

1. **Scaffold Instruction**: "I need to scaffold a lesson on [topic]. What language structures and vocabulary should I focus on to ensure all language proficiency levels are engaged?"

2. **Align with Content Objectives**: "What are effective ways to align language objectives with content objectives in a [subject] lesson for [grade level]?"

3. **Incorporate Language Skills**: "Can you suggest language objectives that incorporate all four language domains (listening, speaking, reading, writing) for a unit on [topic]?"

4. **Differentiate for Proficiency Levels**: "Provide examples of differentiated language objectives for beginners, intermediate, and advanced ELLs for a lesson on [topic]."

5. **Use of Language Functions**: "What language functions are appropriate for a lesson on [topic], and how can I frame these as language objectives?"

Thank you! Want to learn more about using AI to support your ELLs?
