Project Abstract

(Maximum 1 page A4)

.....

.....

.....

.....

1. The organization provided a structured and appropriate working system, including job nature, internship duration, and a mentoring system.

(Summary with supporting information and optional images; limited to 1 page, A4 size)

Guideline

- Clearly specify the department/position in the organization.
- Present a clear structure of management and operations.
- Assign a workplace mentor responsible for supervising the student.
- Provide a clear Job Description for the assigned tasks.
- Plan a project/work assignment suitable for the internship duration.

.....
.....

2. The student’s project was accurate, systematic, and allowed application of academic knowledge and skills in process analysis, problem-solving, or innovation.

(Summary with supporting information and optional images; limited to 2 pages, A4 size)

Guideline

- The assigned tasks/project align with the student’s field of study.
- Knowledge and skills learned in class were appropriately applied.
- Effective and time-appropriate work planning.
- Work was carried out according to the planned schedule.
- Regular progress reviews/presentations to the mentor or supervisor.

.....
.....
.....

3. The organization’s satisfaction with the student’s project was at a “very good” level or at least 80%.

(Include satisfaction evaluation; summary with supporting information and optional images; limited to 2 pages, A4 size)

Guideline

- The student's work provided tangible benefits to the organization.
- Helped reduce the workload of full-time staff.

.....

.....

.....

.....

4. The student's project provided concrete benefits to the organization.

(Summary with supporting information and optional images; limited to 3 pages, A4 size)

Guideline

- The project originated from the student's creativity.
- The organization has implemented or plans to implement the student's work.
- The project helped reduce time, costs, energy consumption, or increased profit/value for the organization.
- The output can be measured in concrete terms (e.g., money saved, time reduced).
- The work has been shared with the public or contributed knowledge/reputation to the organization.
- The student worked as effectively as a full-time staff member, reducing workload for employees.
- The organization has offered a job or expressed interest in hiring the student upon graduation.
