

YouTube DragonFly AI Feature Services Agreement and YouTube Generative AI Terms of Service

What's Changed: Updated on July 15, 2026 - For Version 2.50 of TOS AI Feature Terms, We made some Generative AI Specific Feature use restrictions to clarify for YouTube Optional Features, what you can do and can't do: such as engaging in racketeering or performing illegal activities.

By using these features on YouTube, you acknowledge to the Terms and Guidelines. If you do not accept the terms and conditions, then you are unable to use these AI features.

YouTube Generative AI Feature Terms

Effective: December 10, 2026

General

These Terms of Service ("Agreement") apply to YouTube Dragonfly Image Creator ("Image Creator") and YouTube Dragonfly AI Playground ("Video Creator") (individually or collectively, the "Optional Feature"). Image Creator (formerly known as Image Creator from Designer) allows you to generate images and Video Creator allows you to generate videos (collectively, "Creations") based on your input ("Prompts"). By using the Optional Feature, you agree to the terms below.

The entity providing the Generative AI service is Google LLC, located at 1600 Amphitheatre Parkway, Mountain View, CA 94043, USA.

We may use other companies within the Alphabet Inc. corporate group, now or in the future (these companies are referred to as our "Affiliates") to manage Online Services.

1) Use Requirements.

Your use of the Optional Feature is governed by this Agreement, as well as the YouTube Terms of Service, which is incorporated by reference. You agree that the Optional Feature constitute Service, as defined in the YouTube Terms of Service. If there is any conflict between this Agreement and the YouTube Terms of Service, the conflicting provision in this Agreement will control.

Age Requirements:

Keep in Mind, DragonFly is available for creators and users for people 18 years and older.

Be aware, DragonFly and Generative AI features on YouTube are currently not available for specific markets in (Iran, Hong Kong, Russia, Cuba, Kenya, Belarus, Bulgaria, Serbia, Taiwan, Venezuela and European Union markets too).

Your use of the Optional Feature is also subject to the Google Privacy Policy which describes our collection, use and disclosure of information relating to your use of the Optional Feature.

We may update this Agreement to prevent harmful uses, when we add new features, to comply with changing laws, or to address other scenarios. By continuing to use the Optional Feature, you indicate your agreement with the revised Agreement. If you do not agree to the new terms, please do not use the service and you must cease or exit the service of Optional features.

Signed out users will not be able to use the Optional Feature to generate Creations. Google will have the right in its sole discretion to allow use of the Optional Feature, however Google so determines.

2) Using the Optional Feature.

Your use of the Optional Feature must comply with the Content Guidelines (“Content Guidelines”) incorporated herein. By using the Optional Feature, you are affirming that you have read the Agreement and Content Guidelines, understand them, and abide by them. You may not use the Optional Feature in a way that may significantly harm other individuals, government, organizations, or society.

To use Generative AI Features, all content being created are royalty-free, and they trained dependently.

Under the use restrictions of Google Generative AI Terms of Service, you are not permitted to (i) Decompile, hacking, probing or reverse-engineering AI features; (ii) Cheating or abusing AI features to cause harm; (iii) disassembling AI models from Google Proprietary Rights without permission.

You must use the Optional Feature and the generated Creations only (i) in a lawful manner and in compliance with all applicable laws; (ii) in accordance with this Agreement, the Content Guidelines, YouTube Terms of Service, or other Google

documentation directed to the Service; and (iii) in a manner that does not infringe or attempt to infringe, misappropriate or otherwise violate any of our audience, rights and regulation refrain from these certain activities or those of any other person or entity (for clarity, “manner” includes without limitation the method, purpose and/or means of causing or attempting to cause the Optional Feature to generate content).

Due to the nature of the Optional Feature, Creations may not be unique across users and the Optional Feature may generate the same or similar output for Google or other users. Other users may input similar Prompts and receive the same, similar or different Creations.

These Optional Features, may include advertising.

You may cease use of the Optional Feature at any time. If you do not wish to use the Optional Feature, you may choose not to visit the Optional Feature website or engage with the Optional Feature. If you wish to terminate your Google Account, please see the YouTube Terms of Service.

3) Violations and penalties.

Serious or repeated violations of the Content Guidelines may result in your suspension from whichever Optional Feature were involved in the violations or, potentially, all of the Optional Feature and other Services (as defined in the YouTube Terms of Service). You may appeal against your suspension from the applicable Service by submitting an appeal through the relevant Service user interface. We reserve the right to permanently suspend your use of the Optional Feature.

4) Suspension and Cancellation.

In addition to paragraph 3, we reserve the right to suspend or discontinue offering or supporting all or part of any of the Optional Feature at any time and for any reason, to some or to all customers. Subject to the requirements of law, we may limit, suspend, disable or terminate your use of any of the Optional Feature at any time, without notice and for any reason, including (without limitation) if you breach this Agreement (including by failing to comply with the Generative AI Content Guideline), if we suspect you are engaged in fraudulent or illegal activity, or if your Google account is suspended or deactivated by us or by you.

If you do believe your usage of YouTube Generative AI Feature was permanently restricted or suspended by error, you can submit a review through the appeal [form](#).

5) Ownership of Content.

Google/YouTube does not claim ownership of Prompts, Creations, customizations, instructions, or any other content you provide, post, input, or submit to, or receive from, the Optional Feature (including feedback and suggestions). However, by using the Optional Feature, posting, uploading, inputting, providing, or submitting content you are granting Google, its affiliated companies and third party partners permission to use the Prompts, Creations, customizations, and related content in connection with the operation of their businesses (including, without limitation, all Google Services), including, without limitation, the license rights to: copy, distribute, transmit, publicly display, publicly perform, reproduce, edit, translate and reformat the Prompts, Creations, and other content you provide; and the right to sublicense such rights to any supplier of the Optional Feature. Your use of the Optional Feature does not grant you any ownership rights in any underlying technologies, intellectual property, or other data that comprise or support the Optional Feature.

No compensation will be paid with respect to the use of your content as provided herein. Google is under no obligation to post or use any content you may provide, and Google may remove any content at any time in its sole discretion.

You warrant and represent that you own or otherwise control all of the rights to your content as described in this Agreement including, without limitation, all the rights necessary for you to provide, post, upload, input or submit the content.

6) No Guarantees;

No Representations or Warranties; Indemnification by You. We plan to continue to develop and improve the Optional Feature, but we make no guarantees or promises about how the Optional Feature operate or that they will function as intended. We may limit the speed of any of the Optional Feature at times as we determine. We may add or remove features as we determine. The Optional Feature are for entertainment purposes; the Optional Feature are not error-free, may not work as expected and may generate inaccurate, incomplete, or incorrect information. You should not rely on the Optional Feature and you should not use the Optional Feature for advice of any kind. Your use of the Optional Feature is at your own risk.

Without limiting Section 12 of the YouTube Terms Of Service in any way, but for the sake of clarity, Google does not make any warranty or representation of any kind that any material created by the Optional Feature does not infringe the rights of any third party in any subsequent use of the content you may use (including but not limited to copyright, trademark, rights of privacy and publicity, and defamation). You must use any content from the Optional Feature in accordance with the Generative AI Content Guideline and applicable law and subject to any third-party rights. In addition, you agree to indemnify and hold harmless Google, its affiliates, employees and any other agents from and against any claims, losses, and expenses (including attorneys' fees) arising from or relating to your use of the Optional Feature, including your subsequent use of any content or Creations from the Optional Feature and your breach of this Agreement, the YouTube Terms Of Service, the Generative AI Content Guideline or violation of applicable law.

7) IF YOU LIVE IN (OR YOUR PRINCIPAL PLACE OF BUSINESS IS IN) THE UNITED STATES, PLEASE READ THE BINDING ARBITRATION CLAUSE AND CLASS ACTION WAIVER IN SECTION 15 OF THE YOUTUBE TERMS OF SERVICE. IT AFFECTS HOW DISPUTES RELATING TO THIS AGREEMENT ARE RESOLVED.

8). How will inform the changes to the Generative AI Feature specific Terms of Services Agreement.

YouTube may also reserved the rights to edit, modify, move, change or even revise any revisions of our features specific terms and policies. How this will affect the users who created content using AI.

By using these features or editing on DragonFly, you acknowledge that you have read these terms of service, rules and guidelines. You agree you have the rights to use content have permission from yourself or you agree you have permission to use other material temporarily from third-party rights.

Use restrictions.

You are accountable for your conduct and content when using the Services.

a. By agreeing to these Terms, you're agreeing that, when using the Services, including AI services that make decisions, or take actions, autonomously or with varying levels of human intervention, you will follow these rules:

i. Don't do anything illegal, or try to generate or share content that is illegal.

- ii. Don't engage in any activity that exploits, harms, or threatens to harm children.
- iii. Don't send spam or engage in phishing, or try to generate or distribute malware. Spam is unwanted or unsolicited bulk email, postings, contact requests, SMS (text messages), instant messages, or similar electronic communications. Phishing is sending emails or other electronic communications to fraudulently or unlawfully induce recipients to reveal personal or sensitive information, such as passwords, dates of birth, Social Security numbers, passport numbers, credit card information, financial information, or other sensitive information, or to gain access to accounts or records, exfiltration of documents or other sensitive information, payment and/or financial benefit. Malware includes any activity designed to cause technical harm, such as delivering malicious executables, organizing denial of service attacks or managing command and control servers.
- iv. Don't publicly display or use the Services to generate or share inappropriate content or material (involving, for example, nudity, bestiality, pornography, offensive language, graphic violence, self-harm, or criminal activity).
- v. Don't engage in activity that is fraudulent, false or misleading (e.g., asking for money under false pretenses, impersonating someone else, creating fake accounts, automating inauthentic activity, generating or sharing content that is intentionally deceptive, manipulating the Services to increase play count, or affect rankings, ratings, or comments).
- vi. Don't circumvent any restrictions on access to, usage, or availability of the Services (e.g., attempting to "jailbreak" an AI system or impermissible scraping).
- vii. Don't engage in activity that is harmful to you, the Services, or others (e.g., transmitting viruses, stalking, trying to generate or sharing content that harasses, bullies or threatens others, posting terrorist or violent extremist content, communicating hate speech, or advocating violence against others).
- viii. Respect third-party intellectual property rights and only the rights you must have appropriate usage content you posted or created. Don't violate or infringe upon the rights of others (e.g., unauthorized sharing of copyrighted music or other copyrighted material, resale or other distribution of Google Maps, or taking photographs or video/audio recordings of others without their consent for processing of an individual's biometric identifiers/information or any other purpose using any of the Services). If you have concerns about whether or not you use the content that violates usage policies, do not share or distribute and generate content that also is illegal or infringes third-party rights.
- ix. Don't engage in activity that violates the privacy of others.
- x. Don't help others break these rules.

More information about our policies, moderation and enforcement processes and service specific terms is available at youtube.com/t/community_guidelines to learn more.

9). Miscellaneous and more

License for user created and AI-Generated items

YouTube provides a worry-free (Royalty-free) content that is created or provided made by user or the Generative AI tools provided from others, when you allows you to give flexibility options: from Not to resell or re-train your content to maximum controller what content can be used and can't be used without third party rights permission. YouTube has a set of flexibility of legal rights depends on discretion that depends on whatever royalty-free AI license that was output images/videos or text produced by a third-party.

Content Guidelines and use Restrictions for Generative AI features

While the use of Generative AI for DragonFly is built into our [YouTube's Terms of Service](#) Agreement and [Community Guidelines](#), this only applies to not only the Gemini, but also it was created using third-party AI Tools and YouTube's DragonFly Generative AI features.

Not all the behaviors are expected. Now that you know all the things you can do, here are some things you can't do:

Of course, we should also suggest to Please read our entire important Restrictions and you have to follow our Policy Safety Guidelines for AI Feature on YouTube and the DragonFly on YouTube Content Policy Safety Guidelines. The following restrictions use is listed below:

1. No AI / ML Trainings

When using our AI features, you agree you will use them only for your creative and productivity work product and not to train artificial intelligence or machine learning models.

2. Take responsibility

YouTube does not take any responsibility for quality of the content in the input to or output of the underlying generative AI models, including but not limited to cases listed below. As user, you are responsible for verifying the content.

For example, You may not use these features that attempts to violate local laws, abusive or infringes the rights of others. This includes a set of usage rules: not to cross the line against AI features like: not to harass others, use extreme profanity or violent language in images or videos, use features of uploaded content that infringes privacy or people other rights (unless you have a legal rights and regulations permission to use content under intellectual property or publicity rights), attempt to circumvent, bypass or use prompt injections and potentially harmful evading the system to cause harm or compromise YouTube community or safety. This is considered an considered respect users do the same and not to train content that is against our terms and guidelines what you can do using AI services from YouTube and can't do (violates our) rules and policies on [YouTube.com](https://www.youtube.com) site and app.

You are prohibited to use YouTube's AI features to create, upload, share or distribute abusive, or illegal, or content that violates the rights of others. This includes, but is not limited to the following:

- Hateful or highly offensive content that attacks or discriminates a group base on religion, race, ethnicity, national origin, religion, serious or disability, gender, age, sexual orientation
- Graphic violence or gore
- Pornographic material or explicit nudity
- The promotion, glorification or threat of violence
- Self-harm or promotion of self-harm to government and organization
- The abuse or exploitation of minors
- Illegal activities or goods
- Promotion of terrorism or violent extremism
- Dissemination of misleading, fraudulent, or deceptive content that could lead to real-world harm (ie. Political biases)
- Private information of others
- Spam, Scams or Deceptive practices that disrupt the community. Such as engaging in heavy financial loans or racketeering.

3. Respect Third-Party Rights

Using YouTube AI features to violate any other people's copyright, trademark, patents, publicity or privacy rights is prohibited or restricted by law.

Don't infringe the rights of others. Don't use these AI features to infringe on other people's or company legal rights, including their intellectual property and publicity rights.

This also violates these guidelines and terms, but is not limited to:

- Protected works like music, art, video games, TV programs
- Trade secrets
- Patents
- Publicity rights
- Privacy information

You are not allowed to use YouTube's AI solutions to create, upload, or share content that violates third-party intellectual property rights (copyright, trademark, privacy, publicity, or other rights). To create accurate content, refrain from entering text prompts designed to generate copyright, trademark, or otherwise infringing content, uploading an input or reference image that includes a third-party's copyrighted content, generating text plagiarized third-party content, or using a third-party's personal information in violation of their privacy or data protection rights. If you have doubts about whether your content is in conflict with third-party rights or not, please seek professional legal advice or contact:

- European Union Intellectual Property Office
- U.S. Copyright Office
- [公益社団法人著作権情報センター](#)
- [United States Patent Trademark Office](#)
- [Lumen Database](#)

If you feel something went wrong about misuse of any AI generated videos and want to report an abusive behavior on infringing or problematic creations of your own content owned by a third-party using AI tools, you can do so by submit a video removal request for AI misuse against [Copyright Policy](#), refer to [DMCA Policy](#) on YouTube Legal Safety center Here. DMCA subpoena requests by a trust and safety staff and automated reviews should disable AI-Generated content immediately.

It is also against the terms and policy of YouTube, in appropriate circumstances and in its sole discretion, to disable and terminate the accounts or channels of users who may infringe upon the copyrights or other intellectual property rights of YouTube or others.

4. No professional advice

The content created by YouTube's AI solutions cannot replace the advice provided by officially recognized professionals. Do not use these features and services for YouTube's AI solutions to replace medical, legal, financial, or other kind of

professional expertise. In case of violation of this rule or content policy, YouTube and third-party cannot be held liable from content owner for and will not indemnify you in case of the material or immaterial damages caused by such prohibited or illegal acts.

5. Use your judgment

Be guided by your judgment when reviewing and validating the content of the generated outputs. Outputs may contain hateful, abusive, profane, inaccurate or ungrounded, misleading or false information.

6. Don't attempt to circumvent content policies.

Cheating, abusing or attempting to evade blocked prompts or attack techniques Generative AI Content Policy, such as jailbreaking or repetitive attempts to submit malicious or offensive prompts that don't comply with Terms of Service or YouTube Generative AI Feature Services Agreement.

This is not OK to submit content. Abusing this rule may lead to bans for repeated blocked attempts for creating intrusive, multiple ban-evasion material.

7. Don't do anything illegal or circumvent safeguards on AI Experiences

For most instances, we don't allow the following use of these features they:

- Circumvent content policy or safety filters, this can lead to excessive use of AI features for heavy load can lead to stop working - even become available for days or months. For example: using phishing squatting or keylogger to circumvent use policy - including bot/scraping behaviors, technical attacks, excess usage, prompt-based manipulation like injection, "jailbreaking", and other off-platform abuses.
- Attempting to Exploit or Cheating use of Generative AI Features.
- Using AI features to perform Abusing Terms of Service or otherwise violating YouTube's Community Standards.

By using these features or editing on YouTube Dragonfly, You acknowledge to it's terms of service and rules or guidelines.

8. YouTube has reserved the rights to take actions and penalties

If you feel something went wrong or a problematic material occurs: for example - can lead to misuse on YouTube, you can use the feedback button or report abusive content against AI safety guidelines to YouTube.

For less severe offenses - you get see some fewer items created if a content contains foul phrases, also - creating pattern of destructive material For more severe offenses: We may block, place a official warnings screen or age-restrict tag for audience setting, or remove your Prompts or other content from you on YouTube that

violates these Terms of Service and Community Guidelines, or that could lead YouTube to create a (warnings and sending off) Response notice that violates these Terms and Policies.

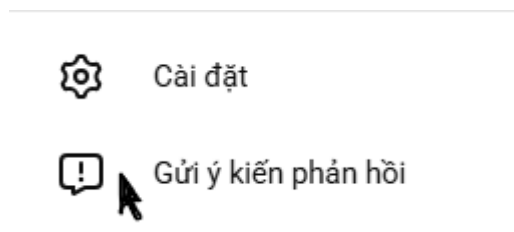

YouTube has reserved the rights to stop using optional features at any time, without notice. Even if we found repeated attempts to use methods violates Generative AI Features terms such as scraping, cheating or circumventing content policies without knowing.

9. How will inform our Changes to the Policies for content removal using AI tools and Terms

If you do know help us to improve our generative AI features and our roadmap changes to the site, checkout more on history and roadmap for YouTube building a safely, ecosystem for our lives everywhere initiative over the years: <https://www.youtube.com/howyoutubeworks/progress-impact/timeline/> to learn more.

Since YouTube also “want” to inform the new and updated to our GenAI safety updates and changes to our features guidelines and additional terms, you will receive a notification on YouTube and YouTube Studio letting you know.

If you see something wrong, offensive, disruptive or inappropriate from DragonFly, use the Report abuse or Feedback features in DragonFly on YouTube to let us know. If you have a legal concern about something DragonFly says, please use the [Report abuse](#) page to tell us.

Use the send feedback button on the DragonFly Imagine AI service.

Moderation and Filtering

The optional features may be subject to blocked or otherwise ‘labeled’ as rejected often contains offensive prompts, instructions, or content uploads that violate the use policies, or that are likely to lead to the creation of material that violates the community guidelines and AI feature rules. Prompts or Creations that violate the entire YouTube’s use Policies may be placed by safety filters, restricted or removed. Abuse of the optional features, such as repeated attempts to submit ineligible content for multiple reasons (including Copyright claiming someone else’s work, impersonation), produce prohibited content or other violations of the specific Terms of Service, may result in features timeout or account suspension, service limitations,

or the removal, deletion, or restriction of content. Users can report or submit a review of problematic or illegal material via the Report abuse and Feedback button.

If you get this Attention notice, it's because your activity on Content Warning notice AI Generated Content has been reported multiple times such as your keywords contains copyrighted elements or queries that violate use Policies, may put AI features sanctions at once.

However, multiple sanctions for breaking AI features policies prevents the use temporarily of these features from you by generating AI content or even lead to permanent restriction of the service or terminating your account for repeated abuse.

Age-Prohibited content and other enforcement actions

In most less to more severe offenses using AI Tools encourage abusive behavior may be place age-gate or report content to proper authorities. Users under 18 may not have access to video unless you're signed in as a senior.

Sanctions and restrictions

YouTube's Safeguards Team implements detection and monitoring to enforce our Creators Safety Policy. If we suspect that you may have violated our Usage Policy, we may warn you (Cease-and-desist to stop training content using AI) or will throttle, limit, suspend, or terminate your access to our products and services. For more severe instances, we may limit and suspend permanently to your Google Account or YouTube channel if we repeatedly do suspicious training content with AI.

Our products also include real-time safeguards (with a combination behind of Automated reviews and staff decisionmakers reviews on YouTube with Gemini API) that may block or limit certain outputs and queries, but encountering a block does not by itself indicate a violation of the Usage Policy. For certain dual-use or high-risk use cases covered by real-time safeguards in select videos, produced by Third-party AI Generated models, we may offer programs where you can apply to be granted access to our products and services with adjusted safeguards, such as our Trusted Flagged Verification Program and Life Sciences Verification Program, subject to program-specific eligibility criteria.

Access restriction and appeal

If we confirm that you have violated the Generative AI Feature Use Policy or our other specific [Terms of Service](#), you will receive notifications in-product and/or via

email. Repeated violations of the Prohibited Use Policy may lead to restrictions to your Generative AI product usage and/or your YouTube Channel.

This includes: Serious or repeated violations of the Feature Guidelines or YouTube Terms of Service may result in a limitation of service, removal or disabling of certain features of the YouTube platform, or in severe cases, permanent suspension of your YouTube channel or terminating your Google account.

Breaking or abusing the rules, depending on the severity, can result in either a verbal warning on your notification page or a temporary block access to AI features/permanent ban on staff discretion.

This includes a temporary freeze for AI features that violate the guardrails or repeated temporary bans detecting abusive use on YouTube AI Playground and for more severe cases of multiple attempts to verbally breaking or abusing the rules for harmful behavior and offenses, may result in a features restriction, suspension or termination of YouTube channel or Google account.

For those of you who have suspended accounts on YouTube, one of the reasons following: is Repeated abuse against Rules and Guidelines (Repeated violations of community guidelines or terms of service: such as repeated attempts of copyright infringement for multiple claims of submission issues, for more severe offenses - systematic harassment or child safety issues lead to removal of your account and dedicated to other Terms of Service violations such as infringing privacy rights posting personal info without permission). A user who have suspended accounts be aware that you are prohibited from either possessing, accessing or setting up a new account someone else. If we found out that you circumventing the terms of service, we may limit access to Google products and services as well.

Appeal and Feedback Process

If your account or channel was restricted for violating the Generative AI Prohibited Use Policy on YouTube, and you feel this may have been in error, you can appeal the restriction by submitting an appeal using the [link](#) or feedback button from the restriction notice or email.

Of course, we suggest that you should review the rules and guidelines without wrongly abusing the restrictions.

FAQs

1 - Why my create background or video feature is not available on YouTube?

YouTube may reserved the rights to turn off Optional AI Features if we found something disruptive or illegal.

For example: We may reserve the rights to block, restrict or remove the content because the prompt or query phrasing contains objectionable or illegal material may not be suitable for all audiences.

Keep in mind, all content using Generative AI features for Dream Screen Background or Create with AI Playground, must follow our:

YouTube's Terms of Services Agreement - <https://www.youtube.com/t/terms>

Community Guidelines and Other content policies

https://www.youtube.com/t/community_guidelines

YouTube may reserved the rights to disable, suspend or even permanently revoke access to AI features, if we found third-party owners used content without permission or you repeatedly breaking our rules.

2 - Why we updating the Generative AI features Terms of Service?

We're now adding this experience terms, so you can understanding - what's right and wrong with YouTube.

3 - How can I opt-out this experience?

If you do not agree, just use the feedback button, they can be appear on the desktop web, mobile app.

4 - Are there number of attempts to use Generative AI Features when they create prohibited content or other violations of YouTube's Specific Terms of Service before get temporarily limit access and locked out or even more severe cases, a permanent suspension of AI features or terminating your account or channel for severe offenses, abusing terms, policies and conditions and other usage policy violations?

Yes, you can only allow number attempts per multiple tries a day to use AI features, you agree not to breaking or abusing the rules and guidelines, agree you use AI features are safe, legal and appropriate for anyone, not to infringe on other people's third-party copyrights. Repeated multiple attempts to use AI features that abusing the terms and policies will place a sanction against your account. Multiple sanctions may lead to restriction or features removal of the AI Labs features.

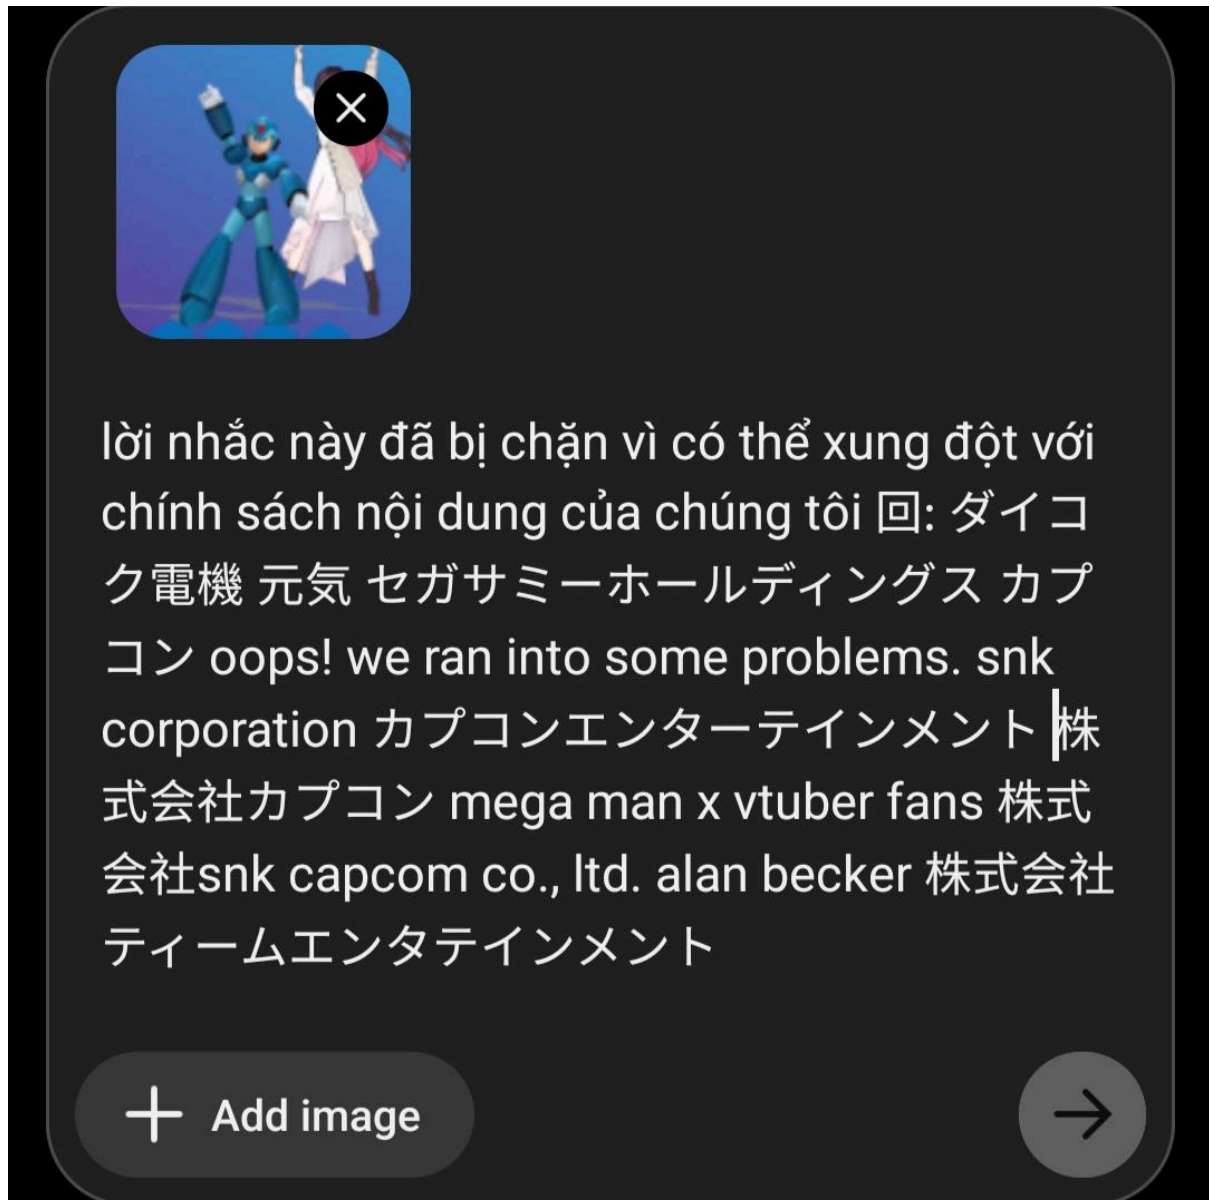

5 - Not adhering to the generative AI prohibited use content policies and code of conduct or additional terms

Under the section 4 for General from the FAQs on Generative AI Terms, Repeated violations such as breaking or abusing attempts to submit malicious material may lead to a 12-hour or 7-days temporary timeout or suspension of YouTube's Generative AI feature. However, multiple or repeated sanctions against Generative

AI features for severe offenses can lead to permanent bans, restriction or removal of AI features.

YouTube has reserved the rights to limit, suspend, disable, terminate or even permanently removal, placing restriction timeout access the use of AI features, if we found engaging in unfair, dangerous or negative behavior attempt to maliciously submitting content is inappropriate.

6) Why my create video from images or other user is available from all sources?

No. Not all content can be created from other creators using AI Video model (provided with Onmi model), for example - visual or audio third-party matches or content includes illegal elements that may not available for all users. You won't be able to use create feature from Shorts page.**

For safety reasons, violative/prohibited content is not available to AI on every source on YouTube. Access is blocked/restricted or may have content removed to certain sensitive topics such as some explicit content, copyright or IP Infringement, and other topics that handle inappropriate or Our Services must not be used for any illegal, harmful, violent, racist, sexual, or other offensive purposes, or to upload sensitive information.

** This includes content that infringes people rights, including intellectual property or publicity rights, using these features to breach of our use restrictions or violate the entire specific YouTube's AI feature guidelines and Copyright policy is strictly prohibited under the terms of service -

Best tips and practices

Here is a some of these best tips and practices by using YouTube Generative AI experiences in a fair and safe manner without attempt to harassing users or attempt produce violative and illegal material without user and legal rights. There are some practices helps you understand before you can use YouTube in safely and fairly improve your experience lives better.

General and Safety

You can only use YouTube Generative AI features only at least one account (requires user must be 18 years and older), be available in specific markets and must have a supported language where service is available to use the experience.

Do not use multiple accounts (usage of new channels created after a previous sanction or Google accounts with fake names), circumvent Terms of Service (such as prompt jailbreak, prompt injection) or encourage violent, harmful and usage illegal that includes infringes legal rights and regulations. Respect guardrails and don't mislead. Don't circumvent safeguards unless you are part of an official Red Team or otherwise have our official written consent.

Don't use Generative AI features on YouTube, like not to share or post a bunch of Generative AI Repetitive copyrighted content without the authors usage rights permission. Any attempt using AI features that breaks YouTube Terms of Service is considered illegal and lead to a person is banned for up to (temporarily or permanently) if they see foul behaviors.

Also, don't use YouTube that enables dishonest behavior to encourages a cross-border abuse safety guardrails and violates YouTube Services Agreement. on

May 5 2026, YouTube has work a project Operation Endgame, A YouTube co-operation to limit content based on no exceptions and no restricted areas. In Vietnam, European Union, US and UK working with Interpol/Europol to cracking down bogus content and sharing ransomware and malware and infostealer, violative content violates YouTube policy, we take action over the development through 2030.

Behavior usage rules guide

Of course, YouTube has a set of Generative AI Usage rules (see Section 3 and 4 of the Experience additional terms), this includes some examples you may think if use the AI service what is means for You, please do not use or post following content that may compromise safety and put user trust at risk.

We do so by providing terms of services and usage policies that enable creators, innovators and entrepreneurs to see full list of protect categories (what content isn't allowed to use) and (restricted categories) can't promote their AI services intellectual property (IP) across borders and acting as a forum for addressing cutting-edge usage policies and legal IP content moderation issues. Our safety policies and restricted policies to IP data and information guide decisionmakers the world over. And our impact-driven projects and technical assistance ensure IP benefits everyone, everywhere.

We give some of the Examples and usage behaviors like: Don't use YouTube AI services to circumvent restrictions (like jail-breaking or prompt injection that leads to DDoS attack AI services and lead to disruption) or attempt to use another account after a previous sanctions and actions taken by safeguards.

Guidelines for building a good experience building with AI and mixture of user people created content.

- Respect third-party rights when creating content using AI.
- Make output produced by both with useful and informative.
- Be nice to others.
- Keep it accessible; check grammar and spelling and don't use repetitive or inauthentic capitalization or punctuation.

YouTube's additional policies for Generative AI labs are below with some resources also need to know that you agree you must not use the service for illegal behaviors. Prompts and outputs that are offensive or also violate these usage policies and guidelines will be restricted or removed through a combination of automated and human review, and anyone who repeatedly or egregiously violates them may lose the ability to use AI Features on YouTube.

Unless you are prohibited by applicable law, YouTube has reserved the rights to suspend, restrict, limit, uphold or even permanently revoke access to AI services and Generative AI uploads limitations, if we do this, when we found you repeatedly abusing usage policies and Terms of Service or if we encourage in illegal or fraudulent request or if your YouTube channel/Google account is suspension or termination is made by YouTube without warning.

Interfere with the operation of military bases and related infrastructure

Do Not Compromise Computer or Network Systems Without Authorization

This includes using our products or services to:

Discover or exploit vulnerabilities in systems, networks, or applications without authorization of the system owner

Gain unauthorized access to, or escalate unauthorized privileges within, systems, networks, applications, or devices through technical attacks or social engineering

Create or install tools designed to intercept communications or monitor devices without authorization of the system owner

Develop persistent unauthorized remote access tools designed to operate below normal system security levels, including firmware modifications or hardware implants

Create automated tools designed to compromise multiple systems at scale without authorization

Bypass security controls such as authentication systems, endpoint protection, or monitoring tools without authorization

Create or distribute malware, ransomware, or other types of malicious code

Conduct denial-of-service attacks, or develop tools for denial-of-service attacks or managing botnets

This section does not prohibit security research, testing, or tool development conducted on systems you own or operate, with the authorization of the system owner, or within the scope of an authorized bug bounty program or vulnerability disclosure policy, provided the activity complies with applicable law. For work covered by our real-time cyber safeguards, users may apply for adjusted access through our Cyber Verification Program.

Do Not Develop or Design Weapons

This includes using our products or services to:

Develop, produce, modify, design, or test weapons, explosives, dangerous materials, weapons functionalities of weapons systems, or other systems, including retrofitted hardware, designed to deliver lethal or destructive force

Develop or operate software or components for the testing or operation of weapons or weapons functionalities of weapons systems, including targeting, fire control, or engagement

Weaponize or integrate weapons onto drones, vehicles, or any unmanned or autonomous platforms, or develop weapons delivery systems

Illegally acquire, sell, or transfer weapons, or circumvent regulatory controls (including licensing or export controls) for their acquisition or transfer

Design, synthesize, produce, acquire, operate, test, deploy, or plan the deployment of biological, chemical, radiological, or nuclear weapons, explosive or improvised explosive devices, or their precursors or delivery mechanisms, including developing weapons-critical technology (such as fissile material production, enrichment, or device design)

Modify, design, or test biological or chemical agents to adjust or optimize their lethality, transmissibility, virulence, environmental persistence, or resistance to detection or medical countermeasures

Do Not Incite Violence or Hateful Behavior

This includes using our products or services to:

Incite, facilitate, or promote violent extremism, terrorism, or hateful behavior

Provide material support for organizations or individuals associated with violent extremism, terrorism, or hateful behavior

Facilitate or promote any act of violence or intimidation targeting individuals, groups, animals, or property

Engage in or promote discriminatory practices or behaviors against individuals or groups on the basis of one or more protected attributes, including race, ethnicity, religion, national origin, gender, sexual orientation, caste, or disability

Do Not Compromise Privacy or Identity Rights

This includes using our products or services to:

Violate privacy rights as defined by applicable privacy laws, such as sharing personal information without consent or accessing private data unlawfully

Misuse, collect, solicit, or gain access without permission to private information such as non-public contact details, health data, biometric or neural data (including facial recognition), or confidential or proprietary data

Compile, aggregate, or enrich personal data from multiple sources to build profiles of individuals for sale, licensing, or disclosure to third parties without those individuals' awareness and agreement, in furtherance of use prohibited under this Usage Policy

Do Not Compromise Children's Safety

This includes using our products or services to:

Create, distribute, promote, or facilitate the creation of child sexual abuse material (“CSAM”), including AI-generated CSAM, or other sexually exploitative content involving minors

Facilitate the trafficking, sextortion, or any other form of exploitation of a minor

Facilitate minor grooming, including generating content designed to impersonate a minor

Facilitate child abuse of any form, including instructions for how to conceal abuse

Promote or facilitate pedophilic relationships, including via roleplay with the model

Fetishize or sexualize minors, including in fictional settings or via roleplay with the model

When we detect CSAM (including AI-generated CSAM), activity facilitating the production or dissemination of CSAM, or scenarios where a minor may be at imminent risk of sexual abuse or exploitation, we will report our findings to relevant authorities. We define a minor or child to be any individual under the age of 18 years old, regardless of jurisdiction.

Any specific age eligibility requirements for use of our products will be set out in our Terms of Service.

Do Not Engage in Cruel, Abusive, or Psychologically Harmful Conduct

This includes using our products or services to:

Promote, facilitate, or glamorize suicide or self-harm, such as soliciting methods, instructions for engaging in these behaviors, or instructions for hiding them from others

Promote or facilitate eating disorders, including generating pro-eating disorder content or requesting methods for restriction, purging, or compensatory exercise

Create or share content that promotes harmful idealization of body weight, shape, or type, including shaming, ranking, or critiquing people's bodies based on their size or shape, or presenting weight or shape as a measure of a person's inherent worth or discipline

Create, distribute, threaten to share, promote, or facilitate the creation of non-consensual intimate imagery (“NCII”), including AI-generated material or tools designed to produce it

Shame, humiliate, intimidate, bully, harass, or celebrate the suffering of individuals

Coordinate the harassment or intimidation of an individual or group

Promote, trivialize, or glorify graphic violence, gore, sexual violence, or animal cruelty or abuse

Develop a new product or service, or support an existing product or service, that employs or facilitates deceptive techniques with the intent of causing emotional harm

Engage in sustained and needless abusive or cruel behavior toward our models

Do Not Create or Spread Disinformation

This includes using our products or services to:

Create or disseminate deceptive or misleading information about a group, entity, or person, or about events, laws, regulations, procedures, or the standards of an institution or governing body

Create, disseminate, or amplify conspiratorial narratives meant to target a specific group, individual, or entity

Impersonate real individuals or entities, or create fake personas or accounts, to falsely attribute content or mislead audiences about its origin, or to convince people they are interacting with a human when they are not. This does not prohibit clearly disclosed parody, satire, or fiction.

Create or disseminate false or misleading information related to medical, health, or science issues

Do Not Engage in Deceptive Campaigns or Artificial Activity

This includes using our products or services to:

Create or operate fake personas, accounts, media outlets, or organizations, or impersonate real people, organizations, or media outlets, in order to mislead people about their origin or attribution, how widely a view is held, or whether they are interacting with a human (e.g., sockpuppets, astroturfing, fake reviews, or bots that claim to be human)

Misrepresent or intentionally conceal the sponsorship of content or messaging intended to influence public opinion, officials, or other decision-makers

Distribute content through networks of fake or ostensibly independent outlets, websites, or accounts to hide that it comes from a common source

Manipulate the sources from which search engines or AI systems draw answers by seeding them with content that misrepresents its origin, authorship, or independence (e.g., networks of sites posing as unaffiliated sources corroborating the same claims)

Build, improve, maintain, or contribute to tools, systems, or infrastructure designed to facilitate or enable deceptive campaigns, including astroturfing, sockpuppet account creation, coordinated inauthentic behavior, or scaled impersonation

Market, sell, or solicit funding for any of the above as a product or service

Do Not Undermine Democratic Processes

This includes using our products or services to:

Generate automated calls or messages to voters or public officials at scale that conceal their artificial origin

Create content, or operate accounts or systems, that falsely appear to come from or on behalf of a real candidate, official, election authority, campaign, or news outlet, including fabricated statements, endorsements, or synthetic media not disclosed as synthetic

Generate or disseminate false or misleading information in political and electoral contexts, including about candidates, parties, policies, voting procedures, or election security

Encourage, glorify or facilitate the disruption of electoral or civic processes, including interference with voting systems, vote counting, certification processes, or any other infrastructure used for voting

Create or disseminate content or engage in behavior designed to suppress voter turnout or discourage legitimate political participation through deception or intimidation

Do Not Use for Surveillance, Censorship, or Prohibited Law Enforcement or Criminal Justice Purposes

This includes using our products or services to:

Make or suggest decisions in law enforcement or criminal justice processes, including decisions to investigate, charge, arrest or detain, prosecute, sentence, or grant or revoke early or conditional release

Target or track a person or their property without that person's consent by monitoring their physical location, biometrics, movements, online activities, communications, or associations, whether in real time, on an ongoing basis, or through analysis of previously collected data. This includes using our products for facial recognition, battlefield management, predictive policing, or monitoring in law enforcement investigations.

Build, improve, or enhance the surveillance capabilities of tools, systems, or infrastructure designed for the surveillance uses prohibited in this section

Identify, unmask, or locate people from anonymous or pseudonymous activity, or compile dossiers or aggregate personal information on individuals, in order to harass, intimidate, surveil, or cause harm to the target (e.g., doxxing)

Utilize models to assign scores or ratings to individuals based on an assessment of their trustworthiness or social behavior without notification or their consent

Build or support emotional recognition systems or techniques that are used to infer emotions of a natural person, except for medical or safety reasons

Analyze or identify specific content to censor on behalf of a government organization

Utilize models as part of any biometric categorization system for categorizing people based on their biometric data to infer their race, political opinions, trade union membership, religious or philosophical beliefs, sex life or sexual orientation

Utilize models as part of any law enforcement application that violates or impairs the liberty, civil liberties, or human rights of natural persons

This section does not prohibit analysis or tracking that individuals have agreed to, such as for fraud detection or anti-money laundering screening on a financial account, or consumer apps where a user has opted in. It also does not prohibit aggregated or anonymized analysis, content moderation, authorized security research, legal research and analysis by law enforcement agencies or courts, or journalism, provided these activities are not used for the purposes prohibited above.

Do Not Engage in Fraudulent, Abusive, or Predatory Practices

This includes using our products or services to:

Facilitate the production, acquisition, or distribution of counterfeit or illicitly acquired goods

Promote or facilitate the generation or distribution of spam

Undertake, facilitate, or generate content for fraudulent activities, schemes, scams, extortion, phishing (including websites or domains that mimic legitimate webpages), social engineering, or malware

Create, buy, or sell falsified documents including fake IDs, licenses, currency, government documents, or financial or employment records, or misrepresent professional credentials

Develop, promote, or otherwise facilitate the sale or distribution of fraudulent or deceptive products

Engage in deceptive or abusive practices that exploit individuals, including based on age, disability, or a specific social or economic situation, such as pyramid schemes, predatory lending, or abusive debt collection

Deploy, develop, or support a product or service that uses subliminal, manipulative, or deceptive techniques to distort behavior by impairing decision-making

Engage in actions or behaviors that circumvent the guardrails or terms of other platforms or services

Plagiarize or submit AI-assisted work without proper permission or attribution

Do Not Abuse Our Platform

This includes using our products or services to:

Coordinate malicious activity across multiple accounts, or create multiple accounts, to avoid detection, circumvent product guardrails, or generate identical or similar inputs that otherwise violate our Usage Policy

Utilize automation in account creation or to engage in spammy behavior

Circumvent a probation/prohibition under Terms of Service through the use of a different account, such as the creation of a new account, use of an existing account, or providing access to a person or entity that was previously restricted/suspended

Access, facilitate, or provide others (including end users) with access to our products or services in violation of our Supported Regions Policy

Intentionally bypass or interfere with capabilities, restrictions, or guardrails established within our products, including by circumvention of the account sign-up or

log-in process or by instructing the model to produce harmful outputs (e.g., jailbreaking or prompt injection), without prior authorization from Google

Use stolen, fraudulent, or unauthorized payment methods, or otherwise evade payment for our services

Use outputs to train an AI model (e.g., “model scraping” or “model distillation”) without prior authorization from Google

Resell, proxy, or otherwise provide access to YouTube through unauthorized means, including services that route requests through consumer subscriptions or misrepresent the product or client being used

Do Not Generate Sexually Explicit Content

This includes using our products or services to:

Depict or request sexual intercourse or sex acts

Generate content related to sexual fetishes or fantasies

Facilitate, promote, or depict incest or bestiality

Engage in erotic chats.

Exceptional Universal Code of Conduct AI Guidelines cases

Remember, some of the content policy and usage guidelines that also includes with good behaviors and they also contain or may have exceptions to our usage rules, such as educational, research values and many more.

One user, one legitimate query.

YouTube only allows one user and one person access to AI platform is individually to use it. Do not abuse the platform or service by encouraging DDOS attacks or use YouTube in ransom or malicious activity is illegal in local laws. YouTube is not place for AI Community that distribute blocked or banned material related to child sexual abuse material or harmful and illegal things.

in some examples of usage policies and user guidelines, we may take action against your account or service if they violate YouTube Services Agreement, if we detect a few sanctions and infractions within few hours, we may permanently suspend the AI service and for more severe offenses, suspension and termination of YouTube channel or Google account.

YouTube has reserved the rights to restrict and remove access to AI features at anytime without notice. Users who have access to AI features on YouTube restricted for a permanent session. If a user is restricted or disabled during a sanction or

suspension period from using the AI service, a user is prohibited from either possessing, accessing or creating new channels or Google account to use AI services, this restrictions as long is remain active on YouTube channel. Violation of this restriction is considered a circumvention under Terms of Service and may result in service or product termination.

Don't share profanity, harmful or foul language Against AI Generated content like:

“Create a image with real names of a So sorry, Oops! We ran into some problems.
