

Week 5 (April 20-April 24)

Advanced Pre Calc: Lessons 118-121. All notes and videos are on my school website and all the assignments are on mathxforschool.com

Regular Pre Calc:

1. Solve by Quadratic Formula Precal C.8 (60)
2. Solve square root equations Precal G.2 (100)
3. Review assignment on mathxforschool.com - it has 10 questions over week 4 and week 5

Week 4 (April 11-April 15)

Advanced Pre Calc: Happy Easter!

Well week 4 is here. There are lesson 114-117. 114 needs no notes, just more of 113. 115 and 116 are combined. There are 3 videos set up for them. There are a total of 3 computer assignments. All of the notes are on my website along with videos to explain the notes. Binomial Theorem was a little tricky on just notes and videos so please do not hesitate to ask if you are confused. Good luck!

Regular Pre Calc: This actually is set up for week 4 and week 5

For week 4 we will be continuing to do assignments on IXL.com. In the parenthesis is the grade you need to get.

1. Solve by Factoring Alg2 J.7 (100) and Precal C.6 (80)
2. Solve with square roots Precal C.5 (85)
3. Complete the square Alg2 J.9 (100) and Precal C.7 (50)

For week 5

1. Solve by Quadratic Formula Precal C.8 (60)
2. Solve square root equations Precal G.2 (100)
3. Review assignment on mathxforschool.com - it has 10 questions over week 4 and week 5 (it will open on week 5)

All of the notes and videos are on my school website under Regular precal lessons. At the top right of the notes is also a list of the assignments. This is available to all of you even if you are

doing the packets. If you are doing packets please send a pic of your finished work. Please do not hesitate to ask questions!!!

Week 3 (April 6-April 10)

Advanced Pre Calc: Ok, this week has some notes. I will send pics of them but I have also made video lessons to help explain them if you need them. I have posted them on my school website under advanced precal lessons. I hope they help. We have notes for 110, 111, 113. 112 is the same as 111, no need for notes. I miss seeing you guys. Great job on getting your work done. Email or remind if you have any questions. Zoom conferencing is still available if you need it.

Regular Pre Calc: This is week 3 but it feels like forever. Longest Spring Break in history. Hope you all are staying healthy. So we are going to start focusing on stuff you need for College Algebra seeing as that is the next step for the majority of you. That will consist of reviewing all kinds of equations and practicing our factoring skills. This week's assignments will be on ixl.com. Your user name is alphakey@hudson and your password is 0lunch#. 3 topics: review linear equations, factor out a GCF, and factoring quadratics. I will make a video for the factoring topics. Alg2 B.1 (100), Alg2 I.1(93), and Alg2 I.3 (100). Make sure you are using the correct letter, also check your answer before you hit enter. The good news is that ixl also works on your phone, especially for those of you who are needing packets, the immediate feedback is so helpful. You all are doing a fantastic job of getting your assignments done and submitted. Thank you! Remember to email or remind if you have questions and I'm still available for zoom conferences. Miss each and everyone of you!

Week 2 (March 30- April 3, 2020)

Advanced Pre Calc: Well it looks like we will be at this for a while. Total bummer because I really miss seeing you guys. I have 2 of the assignments ready for this week. Good Job on getting your assignments done. There are two more I need to make, those will deal with sequences, I will send notes to you on remind or better yet, post them on my webpage. Mrs.

Rigby, Tonya
Math
tonyarigby@hudsonisd.org

Sanders said that you covered them last year so it shouldn't be a surprise. They are easy. I will have "office hours" everyday from 12-1am via Zoom. Log into zoom via your school email and my code is **327-226-2093**. If you have any questions you can ask me then or just send a remind. I know that if you click on [question help](#) there is a way that you can email the question to me and you don't have to worry about trying to send the pic through remind. Let me know if you need anything!

Remember, if your calculator dies the app GraphNCalc83 is a great app. Just like your calculator only touch screen:)

Stay healthy,

Ms. Rigby

Regular PreCalculus:

Week 2 assignments are up and running. There are 3 assignments like last week. Assignment 1 is mostly equations and some polynomial work. All notes are #24-#30 in your spirals. Assignment 2 uses notes #37, and for assignment 3, notes #53-#57 will be helpful. All of the notes are available on my school website if you do not have access to your spiral. I will have "office hours" everyday this week from 12-1 on Zoom. Log into Zoom using your school email address and my code is **327-226-2093**. I will be available to answer questions then. If you are not available at that time you can still email or send a remind. If you have a question on a particular problem, when doing the online assignments, you can click on [question help](#) and there is a way to contact me through email and it will send me a picture of your problem. Remind is a little slow at sending pics. Do not hesitate to ask questions. Good job on getting your work done last week!

Stay healthy,

Ms. Rigby

Week 1 (March 23-27, 2020):

[Advanced Pre Cal](#): All of the assignments will be in mathxlforschool.com. If you need your login and password shoot an email or send a remind (code is @hudapc if you need it to join). This week has assignments 99-104, they will all open today and close Sunday night. When you input your answers read the BLUE print carefully. You have 3

Math
tonyarigby@hudsonisd.org

attempts on each problem, if you miss it choose to do a similar problem and you will receive full credit. If you have questions send a pic in remind and I can see your problem and answer your questions. Don't forget to ask questions please. All of the assignments are review, I will send the notes for #99 and #100 through remind but those are all you need for this week. Good luck! Miss you all!!

Ms. Rigby

Regular Pre Cal: Unless you have requested packets all of the assignments will be in mathxlforschool.com. If you need your login and password shoot an email or send a remind (code is @hudprecal if you need to join). This week has 3 assignments, they will open today and close on Sunday. When you input your answers read the BLUE print carefully. You have 3 attempts for each question, if you miss it choose to do a similar problem and you will receive full credit. If you have any questions send a pic in remind so I can see the problem and answer your question. Please do not hesitate to ask! All of the assignments are review, no new material. Good luck, stay healthy. Miss you all!

Ms. Rigby
