

Linear Algebra MAT313 Fall 2021

Professor Sormani

Lesson 13

Exam 2

This one hour exam has two 25 minute parts.

You may only take Exam 2 after completing all the work for Lessons 7-12. When you are ready, email the professor to schedule your exam. You will create a googledoc:

MAT313F21-Exam2-lastname-firstname

and share editing of that document with me sormanic@gmail.com.

At the top of the document write your name and “MAT313 Exam 2”.

At the time of your exam, we will both open your googledoc and I will place each part of your personalized exam in the document at the right time and you will have 25 minutes to complete that part with pencil and paper, and upload photos of your work. Google will keep a record of when you uploaded your photos, so do not change or move your photos after the time is up for each section. At the end of the exam you will upload selfies holding your work to prove that you completed it.

During the exam you may consult notes and online materials but may not seek assistance from other people. Keep in mind that there is very little time to spend looking things up, so it is better just to work quickly on your own. You must show all work and you must use methods taught in this course to complete the work.
