Dear Princy

Laura and myself have heard with profound regret the loss of your dear little boy and ??? you and Mr. Gex have our deepest sympathies. We know how to appreciate your loss. To speak of him in terms of praise would only increase your anguish. Suffer it to say his beautiful, manly, intellectual, countenance made an indelible impression on me when he was here and if you recollect I remarked to you to be cautious. The (?) unusual development of brain would be the seat of disease with him.

He has I hope made a happy exchange from a world of troubles and pain and although now you would give everything to have him back yet in a few years you would not ? him. Time alone will mitigate your sorrow. Your mama has just left here, she is well. We are all well. Laura speaks of coming down to see you all with your mama. Give my best regards to your affectionate husband and accept assurances of deep felt sorrow

From your friend
W Frazer

Give our love to all the family
