

REQUIRED: Android Software Craftsperson

Employer: **Novoda**

Responsibilities: **Android development**

Job type: Full Time, experienced

Salary: Depending on experience

Novoda are the world's most ambitious product engineering company. Our team have built products for newspapers, retail, orchestras, start-ups, TV & Video Networks which delight millions of users worldwide every day. We're a closely-knit family from diverse disciplines excited to realise humanity's interconnected future. We appeal to ambitious clients with a desire for innovative technology which will really grow their businesses. Join us for work you'll care for and people who care for you—crafting exceptional experiences in small, agile teams.

Job Responsibilities/role:

- Work within an agile team (daily standups, weekly planning meetings)
- Hands-on development: analyse product specifications, design implementations, write code and rapidly deliver mobile app features
- Contribute technical ideas and suggestions to enhance the direction of products and teams
- Write test cases and work with QA on release cycles

Key skills and experience:

- Enormous interest in the Android ecosystem
- A great deal of experience either in Android or Computer Science
- Aspirations for craftsmanship & virtuous clean code is a must
- Interested in all mobile paradigms and what cross-platform technologies can bring
- Up to date with the latest Android & JetPack trends
- Demonstrable experience in apps or open source contributions

About You:

- Willingness to learn
- Self-motivated, able to achieve deadlines

- Autonomous and assertive
- Passionate and articulate

This is a fantastic opportunity to work within a vibrant app development company based in London, Liverpool, Berlin, Barcelona. If you are passionate about the future of Android interconnected devices we would love to hear from you.
