

Dear Parent/Guardian,

The remote learning plan for May 19th-May 29th has been updated. There are daily activities and tasks for the subjects of science, math, reading, and social studies/writing. Daily work loads should not exceed 2 hours. Work being sent home is designed to require minimal guidance from home. Completed work will remain at home and will not be graded. Please know that we are available to assist with the work, or other school related questions. Feel free to contact us with questions or concerns.

Personal items that have been left at school have been bagged up and are available for pickup. Bags containing personal belongings are labeled with student names. This is the last pickup date. Report cards will be mailed out sometime in June. We wish we were at school for the last day farewell. It provides closure for the 5th graders as they close this chapter in their lives.

Best Regards,

Justin Hitt, Donna Mueller, Ben Markel
