Principal Report -

- The spiritual theme for this year is “building bridges” focusing on building healthy relationships through the community and school

- Because of boundary changes, the student population this year is down to 1900 – because of this, the 3 portables were able to be removed from the back parking lot freeing up some parking spaces for student.
- Also, because of the lower amount of grade 7's in the school, the 7's and 8's can eat lunch together and have outdoor time together.
- Classrooms have been rearranged and the 7 and 8's are now all together on the 3rd floor allowing for staff and students to be more collaborative
- Terry Fox day will be October 3rd
- The student fees have been added to School cash online – voluntary but helpful in supplementing activities for the students
- This year there will be grade 7/8 student council with class representatives
- The opening liturgies are set for October 8th
