

Revised on 10/11/2019

Rarity tiers

- **Legendary - Raffle Prize**
 - Varies based on event
- **Rare - 50\$**
 - Limited to one (1) per species
 - Slot will be raffled to ensure equal chance and to accommodate time zones
 - May add bonus Rare Slots for every fifteen (15) people who enter
- **Uncommon - 42\$**
 - Limited to three (3) per species
 - Slot will be raffled to ensure equal chance and to accommodate time zones
 - May add bonus Uncommon slots for every ten (10) people who enter
- **Common - 35\$**
 - Unlimited for the duration of the event

General Information and Rules

- We have at least one MYO a year, with a possible second MYO
 - **First MYO of the year:** Begins April 1st
 - Second MYO of the year: N/A
- There will be serial numbers for each purchase
 - This is currently in the works to help make the process run better than prior MYOs

Designing Rules

- You are free to design your MYO before you have a MYO slot. However you may **NOT** post it publicly
 - If you'd like to post works in progress of your design, ask for feedback while you're working, or thinking up your dream Stardragon, you may post to the #unofficialdesigncorner channel under ArtArea in the [official gemexchange discord!](#).
 - Completed MYOs that have been added to the MYO account may be posted publicly.
- MYO slots are **NOT** meant to be upgrade slots. You may not purchase, for example, a rare MYO slot and apply it to a pre-existing design. MYO slots are new separate characters.
 - This also applies to duplicating old designs just to add the upgraded traits on.

- We already distribute Uncommon/Rare upgrades on occasions and allow purchased upgrades on the occasion. That would defeat the purpose.
- You may add unlimited traits within your rarity tier
 - Your rarity tier is dictated by the type of slot you have
 - You may add traits from your rarity tier, as well as all tiers considered below it. (i.e. a Rare slot may have any combination of rare, uncommon, and common traits.)
 - If you get a uncommon spot, you CANNOT put a rare or legendary on it. You can only go down tiers, not up tiers.

Slot and Sale Rules

- You may trade or sell your MYO slot
 - Slots may be traded or sold for their original price. It is the buyer and seller's responsibilities to keep track of slots and serials.
- When you submit a design and it is approved, your SLOT becomes a DESIGN. You may not retroactively add traits nor redesign a MYO.
 - You may not destroy or completely redesign a DESIGN or treat it as you would a SLOT just because it was a MYO
 - Minor edits to MYO DESIGNS are allowed within reason. The design must be recognizably the same character. If you're unsure, submit your edits through our design edit form.

Raffle and Slot Information

- Rare and Uncommon slots will be distributed via paid raffle
 - If you win the raffle, you will be expected to pay
- You can only enter for four (4) each
 - As in, you can enter for four (4) different uncommons, and four (4) different rares
 - This is to keep people from joining each race just to turn the slot into trade fodder in the event they win
- You must pay within three days of getting your invoice
- Failure to pay the invoice means you forfeit your slot
 - Forfeited slots are reraffled

Submitting MYOs

- For general info
 - **DO NOT** submit unapproved MYOs to the public. Try Stash, Imgur, Google Drive...
 - Have a question about your MYO? Not sure if what you're doing is kosher? Feel free to use this [handy dandy form](#)

- **For FurAffinity Members**

- Submit your MYO to [MYOStarDragons](#) via note
- Generally approved MYOs are submitted each Saturday
 - Sometimes a wild hair gets up someone's ass and approved MYOs are submitted sooner

- **For DeviantArt Members**

- Submit your MYO to [GemExchange](#) via note
- When told your MYO is approved, you're free to submit your MYO to the group under the MYO folder
- Your MYO will also be submitted to the MYO group on FurAffinity as that's where we keep the collective of all approved MYOs
