

<u>Family Background</u> In my family we have 4 people and we are Asian. I have a nice mum and her name is Sheerin. I also have a cool dad, his name is Sam and I can't forget my sister, her name is Zara. My mom and dad were born in Burma and my sister and I were born in New Zealand. In my family we are Muslims so we don't eat pork. My family does not spend a lot of time together. My dad works all day and my mom has a part-time job.	Title: <u>GETTING TO KNOW YOU</u> Nora	<u>Things I do not like:</u> I don't like any kind of big spiders because it scares me. Small spiders are something I am not afraid of but I am scared of the white tail spider because you can't see them and they are poisonous. I don't like eating beans, Brussels sprouts, broccoli and vegetables like that. Beetroot, carrots and vegetables like that are better. The one chore I do not like is washing the dishes.
<u>Things I like</u> I really love writing and cooking so when my mom cooks I take notes of what she does. I don't like chocolate but I love to eat cotton candy wherever I go but especially when I am in movies I really love to have popcorn with cotton candy. I like learning different languages so I can communicate with someone who speaks another language.		<u>What is important to me and my family</u> Something really important to my family is that there is no fighting, that we respect each other and laugh often. Loving each other is another really important thing to my family. The most important thing to my parents is my sister and I. Something else that is important to my family is our health because when I was younger I had pneumonia.
<u>My Friends:</u> I have fewer friends than last year because some of them were Year 3's but I have a lot of old friends this year. We really love to be together most of the time and love to try new things. We like to make up games and play them. If any of my friends go anywhere we will follow them. We like to play scary games, running games even sometimes just hanging out.	<u>Things I am good at:</u> At school I am really good at writing because writing is my favourite subject. I am also good at reading because I like to read words, it helps me focus and maths because I really like to draw graphs. A subject I am also good at, which is my most favourite subject, is swimming. Something that I am good at that I have been that at school is fighting. I am going to do kung fu martial arts later in the term.	<u>What do I want people to know about me?</u> I want people to know that I am really good at maths. I also want people to know that I love organising stuff because when I am at home I always organise the pantry, the desk, and every other stuff. I want people to know that I love painting, I always buy an art set whenever we go to the warehouse to buy stuff.
