

Galvanize Q1 Project Retrospective - Galvanize Trip Planner

[Retrospectives: <https://www.google.com/search?q=agile+project+retrospective>]

Start

- User testing
- Writing more of my own CSS
- Write SASS
- Use a backend
- Cleaning up and refactoring code
- Eliminating unused and/or unneeded code
-

Stop

- Be careful not to spend too much time planning before starting to code
- Using so much boiler plate
-

Continue

- Collaborating closely with PO
- Writing personas
- Writing user stories against personas
- Starting with epic story and then breaking it down
- Git branching
-
