

Our Global Microbiome

Email #2 Marketing Copy

Subject: A World Full Of Microbes

Dear [first name],

I want to let you know about a speaker series where I shared about “insert topic and a little description”

C*vid has gotten us all turned upside down, and so many of us have questions, like

- How can I make sense of what's happening in the world right now?
- Do I have to live in fear of viruses, molds and other pathogens forever?
- Why do some people get sick, and others don't?
- How is 5G and other wireless technology factoring into all of this?
- How can I prepare and protect my family?
- How can we use our growing knowledge of microbiomes to live healthier and happier?
- What are we discovering about the role that humans play in the larger Global Microbiome?

I'll be joining doctors, environmental experts, regenerative farmers, and nutritional therapists to help us understand our relationship with the complex community of viruses, bacteria, and fungi around us.

We will share how we can not only survive, but thrive joyfully through our interconnection with this world of microbes.

This event is not just another online summit, giving you too much information, causing you to panic and buy the recordings. This event is meant to be enjoyed LIVE, all gathered together, even if it has to be via the internet.

Healing takes community, it takes time, it takes plenty of rest, and getting in touch with your intuition. We invite you to join us for breathwork, meditation, straightforward talks, interactive discussions and gentle movement sessions. Of course you can buy the recordings, but more importantly, we ask you to slow down and join us for a weekend of community, love and intention.

I hope you'll join us for a life-changing event that will help you understand how we move forward in a culture forever changed by the global microbiome of 2020.

This speaker series is 30% off thru January 31st! Get ON DEMAND Access right here! ***[insert affiliate link]***
