1. Promote high-ticket affiliate offers
2. Sell your own products or services
3. Run a media marketing agency
4. Generate & sell leads
5. Build and monetize an email list

PRODUCT DETAILS:

FE: TrafficOS AI $37.00 (50%)
https://www.trafficosai.com/live-traffic

TrafficOS AI deploys real AI Traffic Workers across Facebook, YouTube, Reddit, and X — all running inside your own Chrome browser session. These aren't bots or scripts. They read pages, scroll, type with real keyboard events, click real buttons, and pause between actions like a human assistant working through your accounts.

Each campaign you build sends workers out across your chosen platforms to join groups, comment on posts, like content, follow pages, accept friend requests, post content, and start conversations — driving visibility and engagement to your offer 24/7.

Built-in safety limits keep accounts safe and natural-looking. The AI content engine generates every comment, reply, and post in 8 proven styles (Helpful, Hook, Authority, Story, Soft CTA, Soft Sell, Reddit-Style, Mild Contrarian) with anti-spam variation guardrails so nothing reads like a bot.

You also get the Done-For-You High-Ticket Monetization path — a curated library of vetted affiliate offers users can promote without owning a product. Pair the workers with the offers and you've got a full traffic-to-commission loop running from inside one dashboard.

Feature checklist:

✔ AI Traffic Workers (Facebook, YouTube, Reddit, X)

✔ Visual Human Mode (real browser, real clicks, trusted typing)

✔ 8 AI Content Styles + anti-spam variation engine

✔ Multi-platform campaign system (one dashboard, all platforms)

✔ Done-for-you high-ticket affiliate library

✔ AI Workers Dashboard (live activity, status indicators)

✔ Anti-detection safety limits + randomized delays

✔ Full software video training

✔ Commercial rights

✔ One-time payment

What is TrafficOS AI

AI Media Team

Deploy AI-powered traffic workers across Facebook, Reddit, YouTube and X, to help grow visibility, engagement, and traffic automatically from inside your browser.

Smart Engagement Automation

Automatically perform daily engagement actions like commenting, replying, following users, and interacting with content to help keep your accounts active and growing.

Visual Human Mode™

Watch your AI Workers do the work like a real human assistant: they read pages, scroll, type one character at a time, click real buttons, and pause between actions. Built on real Chrome browser sessions, not bots or scripts - so platforms see human behavior, not automation signatures.

Run Your AI Team From Your Phone

Connect TrafficOS AI to Telegram and run your media managers from your phone.

Real automation shouldn't chain you to your desk. With most tools, if you want to check your status or pause a campaign, you have to sit down and log in.

Not TrafficOS AI.

Connect the TrafficOS AI Telegram bot in seconds, then just message it: check your live status, list your campaigns, and activate or pause your media managers with a single command - from anywhere. It even pings you the moment something needs your attention.

Your whole traffic operation, right in your pocket.

AI Content Engine With 8 Proven Comment Styles

Choose from Helpful, Hook, Authority, Story, Soft CTA, Soft Sell, Reddit-Style, or Mild Contrarian. Every reply matches the tone of what's already winning on each platform.

Multi-Platform Campaign System

Manage traffic campaigns across multiple platforms from one dashboard while your AI workers handle the activity in the background.

Done-For-You High-Ticket Monetization

Access pre-selected high-ticket affiliate offers with included training showing users how to connect offers, drive traffic, and monetize campaigns.

Don't have a product to promote? Pick from a curated library of vetted high-ticket affiliate offers. TrafficOS AI handles the traffic, you collect the commission.

Analytics Dashboard

Monitor posts, engagement, worker activity, leads, and campaign performance from one central analytics dashboard.

Browser-Based Automation Engine

TrafficOS AI works directly inside your own browser session for more natural real-time automation without complicated setup or coding.

Full Software Video Training Included

Step-by-step training shows users how to set up campaigns, deploy AI workers, generate traffic, and monetize the platform from day one.

Built For Modern Marketers

Designed for affiliate marketers, agencies, creators, consultants, ecommerce brands, and businesses looking to automate traffic and visibility using AI.

✔ AI campaign creation
✔ Viral-style content generation
✔ AI training on winning posts
✔ Analytics dashboard
✔ High-ticket monetization
✔ Sales Training + commercial rights

✔ One-time payment

VIP Bonus 1. - Nano Banana IMG Gen + Editor (Delivered upon purchase within TrafficOS AI)

Fast-Action Bonus Package:

- **Bonus 1.** AI Reddit Domination Pack - Reddit is HOT right now. Value $97.

A complete Reddit playbook for TrafficOS AI: 50+ high-activity subreddit lists organized by niche (MMO, crypto, ecom, local biz, SaaS, B2B), 30+ proven post angles that historically draw engagement, and pre-written comment templates that fit Reddit's culture. Plug it into your Reddit workers and skip 6 months of trial-and-error.

- **Bonus 2.** AI Hook Generator - Very high engagement angle. Value $67.

A micro-tool built inside TrafficOS AI that spits out scroll-stopping curiosity hooks, opening lines, and pattern-interrupts for any niche on demand. Use them in posts, ads, DMs, or content openers. Trained on hooks from posts that historically pulled the highest engagement.

- **Bonus 3.** Viral Post Database - People LOVE swipe databases. Value $147.

A swipe-file vault of 100+ high-engagement posts across Facebook, Reddit, X, and YouTube, organized by niche and angle. Use them as templates, study what works, or feed them into your AI workers as reference material. Comes with a quick-lookup tag system so you can find a winner in seconds.

- **Bonus 4.** High Ticket Offers Library. Value $10,000 per month.

Skip the hunt for things to promote. Get early access to our curated library of vetted high-ticket affiliate offers (commissions $500–$2,000+ per sale) with pre-written DM scripts, post angles, and follow-up templates built specifically for TrafficOS AI workers.

Simple "What It Really Is" Version

TrafficOS AI is an AI-powered traffic workforce that creates content, builds engagement, finds buyers, and promotes offers automatically across the internet.

Think of it like hiring an entire digital marketing team… inside your browser.

Only this team works 24 hours a day, never burns out, never stops posting, and never asks for a paycheck.

FE Funnel:

OTO #1: TrafficOS AI Unlimited (50%) $97/yr
https://www.trafficosai.com/unlimited-workforce

This isn't just software… it's a complete AI-powered business and traffic operation running inside your browser.

Deploy your own autonomous AI Media Team to build traffic, generate leads, promote high-ticket offers, and scale campaigns across multiple platforms — without hiring staff, creating endless content, or spending hours online.

Inside TrafficOS AI Unlimited, users unlock:

✔ Unlimited AI traffic campaigns

✔ Unlimited daily worker actions across all platforms
✔ Unlimited AI content generation credits
✔ Built-in high-ticket monetization opportunities
✔ Priority support & faster feature access

Every browser tab becomes a specialized AI media manager — finding leads, creating content, engaging audiences, driving traffic, and helping monetize campaigns automatically.

No ceilings. No throttling. No scaling limits.

This is the upgrade that turns TrafficOS AI from a tool... into a real AI-powered business in a box.

OTO 2: TrafficOS AI DFY Campaigns (50%) $67
https://www.trafficosai.com/we-do-it-for-you

DFY Campaigns hands you 50+ pre-built, ready-to-deploy campaigns covering the highest-converting niches and offer types. No guessing what workers to enable, no fiddling with daily caps, no figuring out which content style works on which platform.

- 50+ pre-built campaigns ready to deploy in one click
- Reddit (amongst other platforms) campaign starter packs
- Pre-loaded AI Worker presets (no setup, no guessing)
- Done-for-you DM follow-up scripts

This is for users who don't want to spend 2-3 weeks learning what works — just pick the niche, click Deploy, and the workers go to work.

OTO #3: TrafficOS AI Elite Mode (50%) $197
https://www.trafficosai.com/elite-mode

Turn TrafficOS AI into a real lead-generating machine. It unlocks the advanced features that move TrafficOS AI from "engagement tool" to "full prospecting and outreach pipeline."

- AI Campaign Builder — auto-analyses your website/product, picks platforms, suggests keywords, builds the full campaign
- AI Lead Scraper — workers scrape qualified leads from posts, comments, profiles into a saved lead list
- AI DM Outreach — auto-DM saved leads with personalized messages (Reddit)
- Multi-Browser Profiles — run multiple accounts safely with isolated browser sessions
- Lead-to-DM Pipeline — scraped leads flow straight into outreach without manual export

On top of that you unlock specialized AI Workers that do smarter, and more advanced tasks.

OTO #4: TrafficOS AI Agency Clients (50%) $97
https://www.trafficosai.com/agency-license

The client-ready version of TrafficOS AI is built for agencies, freelancers, and service providers. Add and manage up to 100 client sub-accounts under one master dashboard. Each client gets their own companies, campaigns, AI workers, and lead capture — fully isolated and organized so client A never sees client B's data.

Includes a customizable sales page so you can sell AI traffic / lead-gen services under your own brand the day you upgrade. Plus pre-built client onboarding docs, proposal templates, agency pricing sheets ($497–$1,997/mo client packages), cold outreach scripts, and fulfillment SOPs.

Perfect for marketing agencies, VAs, lead-gen specialists, or anyone who wants to offer AI-powered traffic and engagement as a done-for-you service. Sell it as a recurring monthly retainer and the upgrade pays itself back on the first client.

- Commercial rights (use for paying clients)
- Client onboarding docs + intake forms
- Agency proposal templates
- Pricing sheet ($497–$1997/mo client packages)
- Cold outreach scripts (FB DM + email)
- Client fulfillment SOPs
- Multi-client dashboard view
- Lead-gen-as-a-service workflows for local business

OTO #5: **TrafficOS AI Whitelabel SaaS** (50%) $497
https://www.trafficosai.com/whitelabel-ownership

Get full white-label rights to rebrand TrafficOS AI as your own SaaS product. Your logo, your colors, your domain — including the Chrome extension itself. Sell it as a SaaS, charge monthly subscriptions ($97–$497/mo per client), or wrap it into your agency's premium service stack.

What you get:

Full rebrand (dashboard + extension + emails + login screens)
Multi-tenant client accounts
White-label Chrome extension manifest
SaaS monetization training (positioning, pricing, retention)
Sell subscriptions, charge setup fees, build recurring MRR
We'll either ship you the source code for self-hosting, or set it up on your server so you don't touch a line of code. You control everything: pricing, branding, customer relationships, the works.

This is how you turn TrafficOS AI into a real recurring revenue asset without building software from scratch.

TrafficOS AI Bundle (50%) Full price $428+ Special Launch Pricing $317
