# How to Connect Your CCPS Laptop to Wifi

1. At the login screen, find the internet icon at the bottom right of the screen. Click it.

2. In the window that appears, find the wireless network you want to connect to and click it.

3. Click **Connect**.

4. Enter the network password.

5. Click **Next**.

6. You should now be connected to the wireless network.

7. The network icon on the bottom right of the login screen should change from ![globe with no internet icon] to ![wifi icon] indicating that the laptop is connected.

![Wi-Fi network connection panel showing CCS DirectAccess Connection with No Internet, and Wi-Fi Network 1 Connected, secured (highlighted with red box labeled 6), with Disconnect button. At bottom are Wi-Fi and Airplane mode toggles.]
