Content:

1. While I do NSFW art, I do not do a small variety of sexually explicit content, i am open for talks but I keep to a strict list. (If its not on the Do/Donts list then its up for talks)
2. I reserve the right to change any text or dialogue requested in a commissioned piece.
3. I reserve the right to refuse taking any commission I do not wish to work on.
4. Please make sure your request is legible. If I can not read your commission request, I will not take it.

5. After agreeing upon an idea and payment has been made, minor adjustments may be allowed, though adding more content than what was agreed upon, or changing the content that was agreed upon may be subject to additional fees.
6. If you have questions about possible content, you are free to ask, though if it does not involve the above, it is unlikely.

Pricing:

1. I use paypal invoices to request payment. When asking for a commission, please provide an email to which I may send the invoice to.
2. Once i start a commission you are given a bare bones sketch of the pose's and positioning of character/'s and Items, no detail just shapes and once thumbnail is picked out i will require full or half of starter payment before proceeding with sketch phase and or further rendering.
3. I do not begin sketch work on a commission until the invoice is paid in full or half of the starter payment.
4. If your situation changes and wish to cancel a commission before it is fully complete, I will provide a refund.
 - a. I will withhold all WiPs of the refunded piece
 - b. Abuse of this rule (such as requesting a refund on a nearly complete piece) will result as a permaban from my commissions, as well as being flagged as a "problem client" to other artists in the community.
5. Once a piece is complete and handed over, I do not offer refunds.
6. If I am unable to complete your request for some reason, I will provide a refund.
7. If minor mistakes are discovered in a complete piece, I may fix them at the request of the commissioner.
8. Edits after a piece is complete that are not to fix an error are subject to a fee, depending on the size of the edit.(If the piece is beyond sketch/color phase and has gone to rendering phase any changes will be subject to a fee)
9. Detailed requests (such as fancy armor) may increase the price.
10. Creating a character from scratch (such as from only piece meal references and not a fully finished design) is subject to a price increase depending on it's complexity.

Refused Content

The following is a list of series and/or characters that, in no specific order, I prefer not to make fetish content of or with due to personal tastes and biases. SFW content might be allowed on a case-by- case basis. OC's (original characters) inspired by the following might be allowed as well on the same case to case basis.

- Little Witch Academia

- My Little Pony
- Totally Spies
- Real life people or actors/actresses
- Other people's OC's without their owner's consent. (Gifts or Presents for the owner in question may still be allowed)
- Politics of any kind (Please for the love of god don't bring politics to me)
