

Basic Vietnam GI team kit guide

Most accurate

Less accurate

Gear.

M1956 Webgear was used throughout the war. A basic m56 webgear set costs ~\$125. Alice gear was the postwar equivalent to m56 webgear. Any modern webgear or load bearing vest is acceptable. Looks better than a plate carrier or chest rig.

Head gear.

M1 helmets, boonie hats, green caps. Easy and simple.

**Any solid
green BDU
shirt and pants**

Clothing.

2nd and 3rd Pattern Jungle Fatigues are the most accurate option. OG-107s look alright but were not meant for combat. Any solid green BDU shirt and pants are fine.
