PERSONAL PROFILE

I am a versatile and results-driven Frontend Developer with a strong foundation in building responsive, user-focused web applications using React.js, Next.js, TypeScript, and modern frontend technologies. Passionate about crafting clean, scalable solutions that enhance user experiences. I bring a careful, problem-solving mindset to every project. Eager to contribute to innovative teams, and stay up-to-date with the latest frontend technologies. I thrive in Agile environments and am committed to delivering impactful and maintainable software that drives business value.

EDUCATION

Middlesex University, London

September 2024 - June 2025

BSc Information Technology & Business Information Systems

Aptech Learning, Enugu

September 2022 - January 2024

Advanced Diploma in Software Engineering - Distinction

TECHNICAL AND KEY SKILLS:

- **Technical:** Next.js, React.js, Vite, JavaScript, Ether.js, TypeScript, Tailwind CSS, HTML5, Web3, CSS3, Git, GitHub, React Toolkit, Figma, Webpack, Python, REST APIs
- **Core:** Problem-solving, Attention to detail, Continuous learning, Debugging, Code optimization
- **Soft:** Collaboration, Communication, Adaptability, Time management, Teamwork

WORK EXPERIENCE:

Simbi Study App (Frontend Developer) - Team Project (MVP)

May 2025

- Engineered a study timer, chatbot interface, and session tracker using Next.js, Typescript and Zustand, enhancing productivity for student users.
- Collaborated closely with backend engineers, product designers, PMs, and data analysts to deliver a seamless user experience and align features with user needs.
- Integrated secure API communication with Axios interceptors and implemented auth guards, ensuring data persistence and access control.

Genesys Learnable (Frontend Developer Intern)

December 2024 - Present

- Co-developed CivicLink, a civic engagement app integrating Ether.js and Zustand, designed for seamless Web3 interactions and intuitive user flows.
- Developed and refined responsive UI components using ReactJS, TypeScript, and Tailwind CSS, improving maintainability across multiple views.
- Championed agile sprints, code reviews, and performance tuning, enhancing code quality and deepening understanding of scalable frontend architectures.

PROJECTS:

Timbu Cloud Shop (Frontend Developer) - Collaborator

July 2024

- Built a responsive e-commerce interface using ReactJS, ensuring a seamless shopping experience across home, product, cart, and checkout pages.
- Integrated dynamic cart functionality with React state management, allowing users to add and remove products effortlessly.
- Collaborated with a UI designer to accurately implement Figma designs, improving design fidelity and user satisfaction.

HashAd (Frontend Developer) - Personal Project & Collaborator

April 2024

- Developed a campus-focused marketplace platform using ReactJS, empowering students to advertise and sell within their school communities.
- Implemented a signup system with school-based filtering, personalizing product visibility and search relevance.
- Introduced a hashtag-based search and advanced filtering to improve discoverability and streamline user navigation.

Yienor Blog (Frontend Developer) - Collaborator

January 2024

- Created a responsive blog platform using ReactJS, enabling smooth navigation and engaging content exploration for readers.
- Designed a clean and functional UI/UX, enhancing readability and usability across devices.
- Built an admin dashboard to allow easy blog content management by the writer, improving content control and site upkeep.

CERTIFICATIONS, TRAINING & COURSES

Advanced Diploma in Software Engineering - Aptech

ALX Software Engineering Programme - ALX Africa

ADDITIONAL INFORMATION:

- **Location:** Hendon Campus
- **Interests:** Full-stack development, cross-platform mobile apps, and impactful educational solutions.
- **Availability:** Ready to work, contribute and grow through hands-on experiences and mentorship.
