

Google Drive

Who's using it?

- KIPP
- Morris Jeff

Price:
free

Why use it?

- writing documents, collaborating on documents, presentations, spreadsheets

Best Practices / Quick Wins:

- Use Classroom or Hapara to push out documents
- If you want students to create a presentation, use the notes section to put your criteria for success for each slide. Create this template and then push it out on Hapara or Drive.

Data Tracking / Student Celebration:

- Pull student paper or presentations up on the board while they are working. Give live feedback (positive and negative) as students work to motivate and improve work quality.

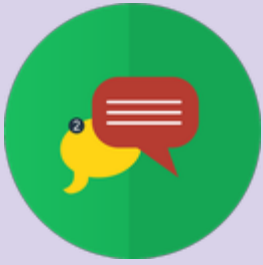

Common Pitfalls

- Students can be slow at first when new to Drive. Be patient, they will get fast!

Account Creation & Set-Up

- Accounts must be created by getting Google Apps for education for your school.
