

Song to Hiwa:

(audio track linked to song title)

Little one of Pastel Beauty
How you folick through the green
Jumping high and rolling low
As if simply in a trance~

Play although your lonely
Never stop believing
Only you can break~
Your solitude so show your face~!

Your Silence is not a curse
Your voice is still but you say much
Never left wondering what is on your mind
It only ever takes a moment of time

Everyday a struggle
Every night just a subtle-
Push in your conviction-
Making sure others will listen!

Everything will fall into place~
Just never stop~~~
Holding Your Head Up Hiiiiigh~!
Just Hold Your~~
Head Up, To the Sky~~~~~!
