

Boycotting in music

1. Why the boycott?

Boycotting music is due to associations with Zionists or politicians' views related to Zionism.

Certain artists, music labels, or performers who support Zionism should not be supported because of this.

2. How will it benefit us?

The main idea of boycotting is to not support the artist / music label / performers etc

Boycotts do not always result in immediate or tangible change, but will leave damage because of your boycotting.

3. Steps should not miss when boycotting in music

1. avoid streaming.

2. avoid interactions with the artist / song / music label you're boycotting on all official platforms.

3. speak up on why we need to boycott.
