Trivia - Style Game Show using Tablet Technology
 You and your team will become contestants just like you see on real TV Game Shows. We set up the competition to be played as teams or as individual participation. Our professional game show host will ask fun, pop culture trivia questions, questions followed by sound clips, or questions you provide.

Each tablet connects through to our server based laptop enabling us to transform our tablets into a quiz handset and buzzer. Once your tablet is logged onto the Quiz network, your internet access is then disabled. Making you rely on good old fashioned brain power to come up with answers.
