FAMILY College Project
2nd Grade
Due Wednesday, November 19

1. Below is a list of colleges or universities that are not in Texas. I have highlighted one for you to research.
2. You need to find out the following information:
    a. The school colors
    b. The mascot
    c. The yearly tuition for the university
    d. One interesting fact about the college
3. Be prepared to tell the class what you learned. You do not have to do a written report, but you can prepare note cards if you like.
4. Create a T-shirt for the college that shows the information you learned, ***the school colors, the mascot, the yearly tuition and the interesting fact***. Be creative as to how you show the information! (T-shirt can be cut out of posterboard or can be created on a real t-shirt, either one is fine)

I will be grading the following:

- *The creativity of your T-shirt* (***did you challenge yourself, is it GT quality, did you design it yourself***)
- *The Research – did you find the information required*
- *Your presentation to the class* – PLEASE practice your presentation at home. I do not want you standing in front of the class reading a report. I want you talking to the class about the college. I'm looking for you to be prepared.

Please note: If I am giving you two weeks to do a project, it means that it will take you some time to complete it and you will need to spend a little time each week. Do not procrastinate. Make a plan now for how you and your family will get this assignment completed. This is a family project as I hope to generate conversations about college that will continue for many years to come. Previous GT families have really enjoyed this project.

Please do not hesitate to ask questions as you get started on this project.

Colleges:

1. Stanford University – ***Allison Clinard***
2. Massachusetts Institute of Technology – ***Jenna Embrey***
3. University of California, Berkeley – ***London Finch***
4. Michigan State University – ***Aloma Porter***
5. Yale University – ***A.J. Garcia***
6. Indiana University – ***Jacob Smith***
7. Purdue University – ***Ryan Houk***
8. Duke University – ***Adrianna Morse***
9. California Institute of Technology – ***Ebon Ramsey***
10. Columbia University – ***Marcos Perez-Avila***
11. Harvard University – ***Angel Sheriffe***
12. University of Washington
