

Camp Tahquitz 11/3/24 Course Setter Notes

Map Updates

Minor corrections have been made to parts of the map this year, as needed. Unfortunately, it was not possible to update the entire map. All courses this year will be printed at 1:7500 with 20 ft (6.1 m) contours.

Permanent Out-of-Bounds Areas

The map has two large, distinct black slashed areas. This symbol denotes this area as permanently out of bounds. Passing through these areas will lead to disqualification. You probably don't want to go through there anyways because it is full of stinging nettle.

Weather

The forecast for Sunday is cold, with temperatures in the 40s and low 50s. There is a chance of rain, so please plan accordingly.

CA-38 Highway

It is highly discouraged to cross the CA-38 highway other than by using the bridge. White, Yellow, and Orange courses are all located in the south part of the camp and DO NOT require you to cross the highway. Only the advanced courses: Brown, Green, and Red are forced to cross the highway via the bridge. For these advanced courses, it is mandatory to punch the bridge control 2 times, once when crossing over to the north side, and once when crossing back to the south side.

Flagged Route

The Yellow and Orange courses will have one flagged leg, indicated with a marked route symbol on the map and pink streamers on the ground.
