

Introduction to Flipgrid Guide

1. Go to: <https://info.flipgrid.com/>
2. Click in “Enter a Flip Code” and enter the Flip Code corresponding to your grade level workshop:
 - o Grade 6: mg06
 - o Grade 7: mg07
 - o Grades 8 & 9: mg08
 - o Grades 10+: mg10

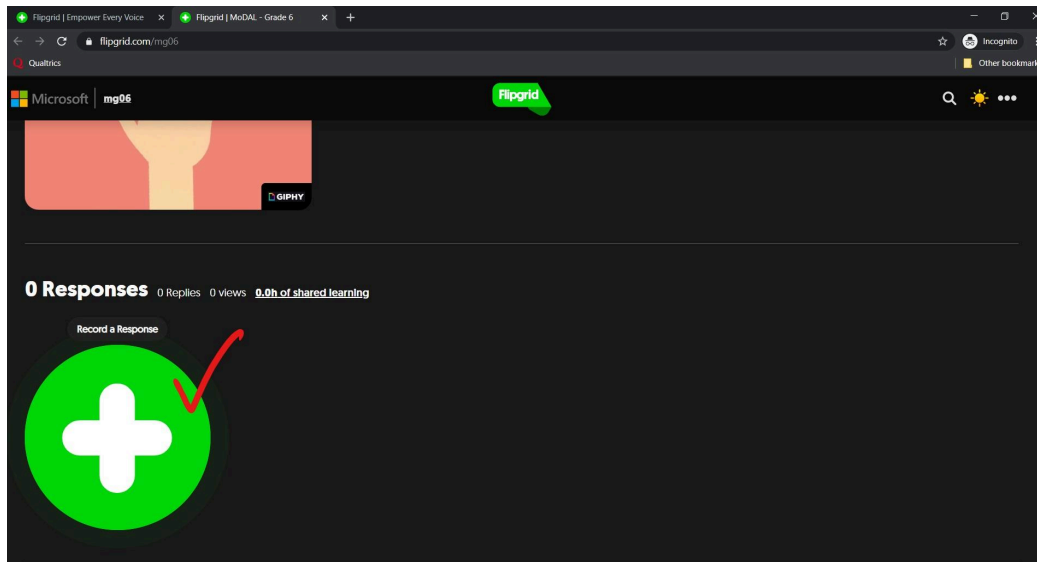

You should see something similar to the image below, with your correct grade level at the top

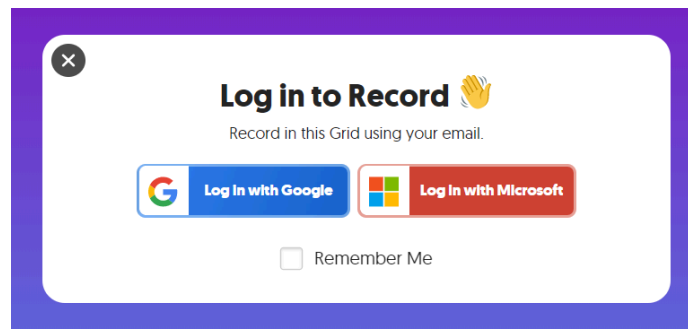

BOISE STATE UNIVERSITY

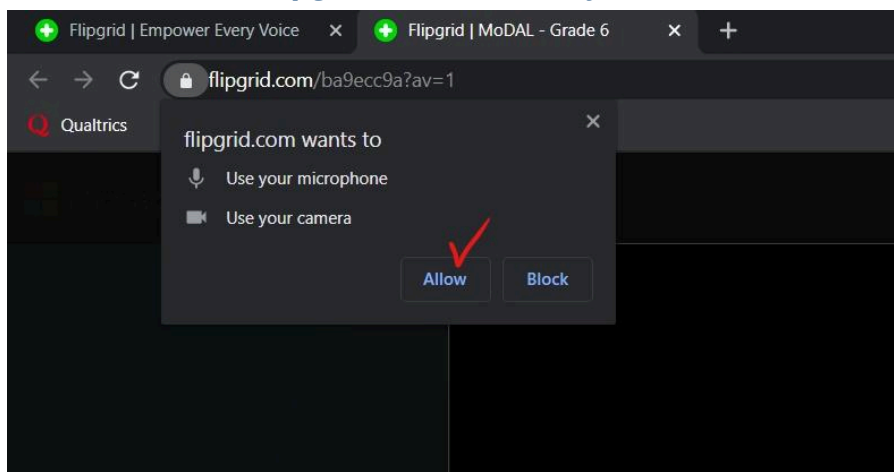

3. Scroll down and click the green + to sign into your account and record your video

4. Log in with your google or microsoft connected email. Pick an email you commonly use, and use the same email throughout this course.

5. Click "Allow" and allow Flipgrid to record on your device.

6. Now you are ready to record!

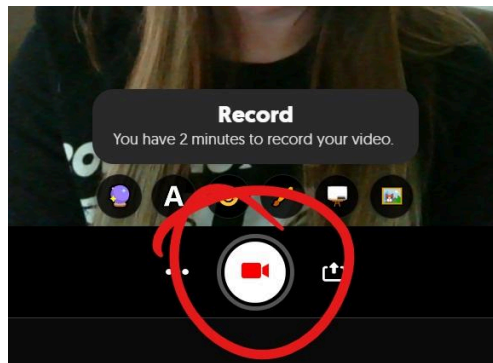

For module 0, your video should include:

- Your name
- What you teach and where
- A graph from CODAP with a brief explanation
- A fun fact about yourself (e.g., most interesting thing you have done since social-distancing went into place)

There are many ways you can record on Flipgrid, you should explore the various tools to see what you like. However, there will be three main tools you might want to use:

○ **Traditional Recording:**

- i. Click the red camera to record yourself using your computer's camera

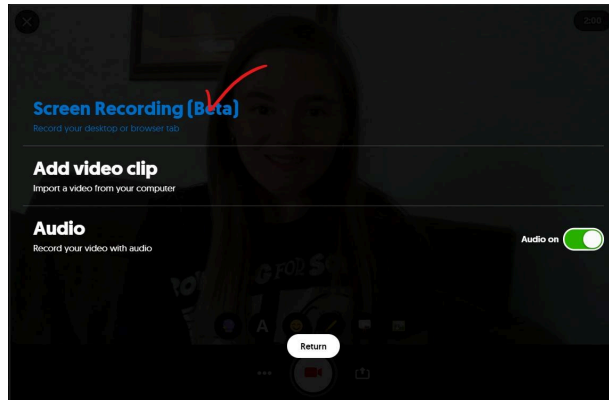

○ **Screen Recording:**

- i. Click on the 3 dots to the left of the camera

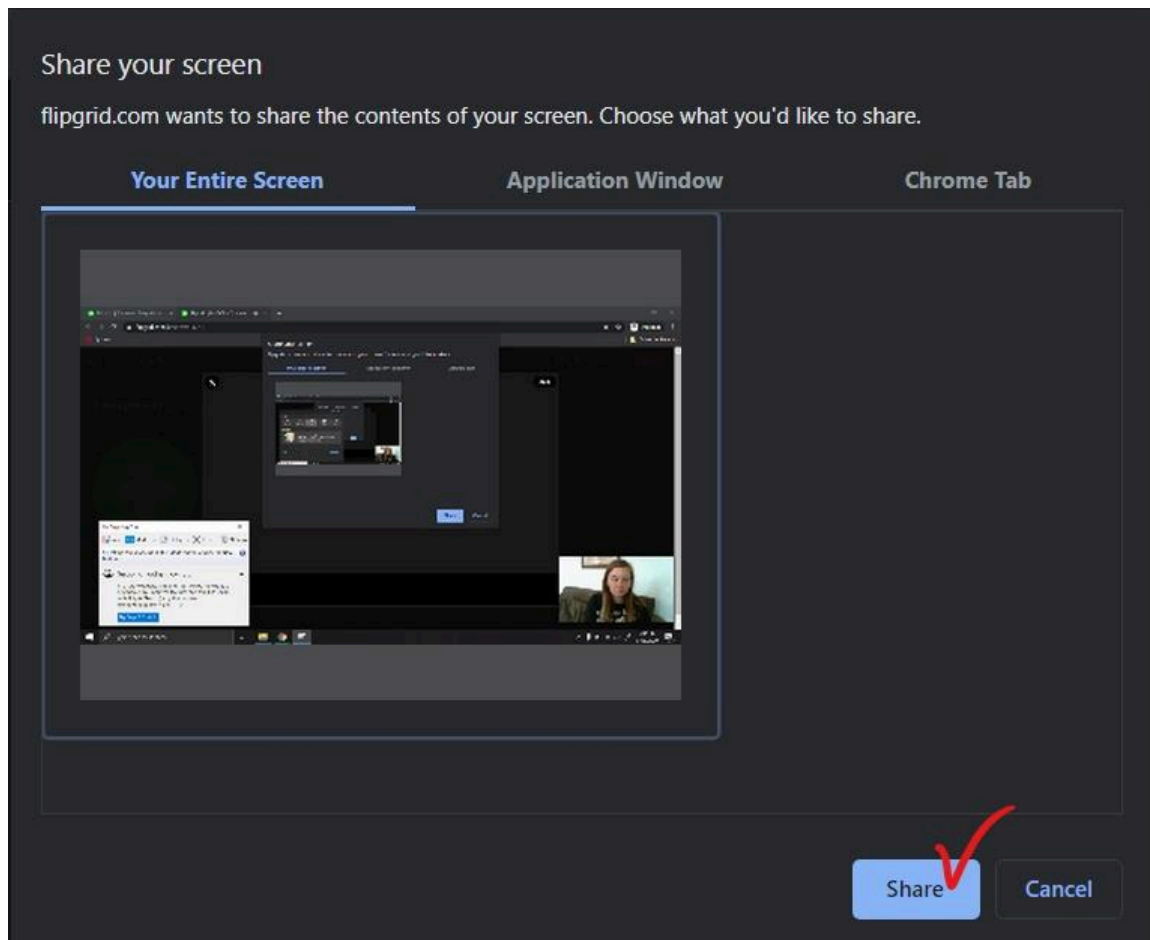

- ii. Select "Screen Recording (Beta)"

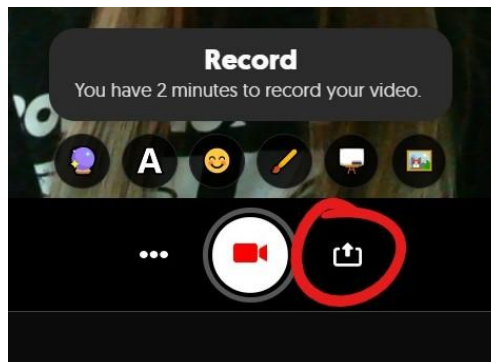

- iii. Select one of the screen sharing options (I prefer "entire screen") and then click share

- **Uploading a video:**

- i. Click the upload button to the right of the camera to upload a pre-recorded video, if you have one.

7. When you have finished recording your video, click “Next”.

8. If you change your mind, you can click “Add More” to add on to your video, otherwise click “Next” again.

9. Take a quick selfie that will act as the thumbnail of your video, then click “Next” again. Finally enter your name under “display name” and click submit video.

Submit your video

Bonus! How to use more than one of the features shown in Step 6.

Do you want to do some talking and then share your screen or a similar combination of recording options? Here's how!

Follow Steps 1 - 7, selecting your first desired method of recording in step 6. Click "Next" when you are finished with recording your first section. Then, on Step 8, instead of clicking "Next", click "Add More"

Now, you will be brought back to the same screen as you were when you started recording. Don't worry, your previously recording section is still there! Now, you can select a new method of recording (or the same method if you just want to add on to what you were doing before)
