Grade 6 Pre-Algebra: Year at a Glance

Resource: Big Ideas Math: Modeling Real Life - Grade 6 Advanced (ISBN: 9781642450637)

Semester 1	Standards	Big Ideas
Numerical Expressions and Factors	6.EE.1 (Write and evaluate numerical expressions) 6.NS.4 (GCF, LCM, Distributive Property)	Chapter 1
Fractions and Decimals	6.NS.1 (Apply and extend previous understandings of multiplication and division to divide fractions by fractions) 6.NS.2 (Compute fluently with multi-digit numbers and find common factors and multiples) 6.NS.3 (Fluently add, subtract, multiply, and divide decimals using the standard algorithm)	Chapter 2
Ratios & Rates	6.RP.1 (Ratios) 6.RP.3a (Ratios in tables/coordinate plane) 6.RP.2 (Unit rate) 6.RP.3b (Real world unit rate and constant speed problems) 6.RP.3d (Converting measurements) 6.EE.9 (Independent/dependent variables)	Chapter 3
Percents and Percent Applications	6.RP.3 (Ratios and rates) 6.NS.7a (Compare rational numbers on a number line) 6.NS.7b (Order rational numbers in a real-world context) 6.RP.3c (Percent problems; include applications)	Chapter 4
Expressions	6.EE.2 (Write and evaluate variable expressions) 6.EE.3 (Generate equivalent expressions) 6.EE.4 (Identify equivalent expressions) context)	Chapter 5
Equations	6.EE.5 (True equations) 6.EE.6 (Write expression with variables when solving real-world problems) 6.EE.7 (Solve real-world problems using equations)	Chapter 6

Semester 2	Standards	Big Ideas
Equations (Continued)	6.EE.5 (True equations) 6.EE.6 (Write expression with variables when solving real-world problems) 6.EE.7 (Solve real-world problems using equations)	Chapter 6
Inequalities	6.EE.5 (True inequalities) 6.EE.8 (Write and understand inequalities)	(8.7 and 8.8) *note: 8.8 goes into the 7th grade standard
Geometry	6.G.1 (Area of polygons) 6.G.2 (Volume of prisms by packing and using the formula) 6.G.4 (Nets of 3-D figures and surface area)	Chapter 7
Rational Numbers on the Number Line and Coordinate Plane	6.NS.5 (Positive & Negative numbers in real world contexts) 6.NS.6 (Rational numbers on number line and coordinate plane) 6.NS.7 (Ordering rational numbers and absolute value of rational numbers) 6.NS.8 (Solving real-world problems by graphing in coordinate plane) 6.G.3 (Draw polygons in coordinate plane)	Chapter 8
Operations with Rational Numbers	7.NS.1 (Add and subtract rational numbers) 7.NS.2 (Multiply and divide rational numbers) 7.NS.3 (Solve real-world problems with rational numbers)	Chapter A and B (Sections A.3, A.5, B.4, B.5)
Statistics	6.SP.1 (Statistical questions) 6.SP.2 (Distributions have center, spread and overall shape) 6.SP.3 (Measures of center and variability) 6.SP.4 (Display data) 6.SP.5 (Summarize data)	Chapter 9, 10

Priority Standards: Not all content in a given grade is emphasized equally in the Standards. Some clusters require greater emphasis than others based on the depth of the ideas, the time that they take to master, and/or their importance to future mathematics or the demands of college and career readiness. More time in these areas is necessary. These standards are taught in-depth to full mastery.

Supporting vs. Additional: Supporting standards (highlighted in blue) are designed to strengthen the areas of major emphasis. Connections are clear and emphasize coherence between topics. Additional standards (highlighted in yellow) do not connect as tightly as supporting standards.
