"The abstracts should be written in English as a single paragraph and should not contain more than 300 words with single-spaced and justified text, Times New Roman font size 11, and should include introduction, research objective, materials and methods, results, and conclusion (see template). Literature reviews and scientific notes will not be accepted. The abstract title (font size 12) should be centered and in bold capital letters, leaving a double-spaced line, and then adding in lowercase letters, justified, the name(s) and surname(s) of the member(s) of the research team, separated by a comma, font size 11. The institution of affiliation, address, and email should be written in font size 10 and centered, after a space below the authors, using increasing numerical superscripts. Only one abstract per author will be accepted, with the primary author of the abstract able to participate as a co-author in other works. The abstract must have a maximum of 6 authors. The authors should provide, in the upper left corner of the page, above the title, the research concentration area, which must be inserted in one of the following areas: Plant Breeding, Omics or Genetic Resources. After the abstract, three keywords separated by a semicolon should be indicated, which are not present in the title. The abstract should be sent to the following email: [visgpb@gmail.com](mailto:visgpb@gmail.com). The works must be presented in poster format (see template), **with the exception of the top three works, which must be presented orally during the event.** For orally presented works, the presentation must be made in PowerPoint in a minimum of 5 and a maximum of 10 minutes (see template). The oral and poster sessions will take place at a location, date, and time determined and disclosed by the organizing committee on the event website."
