    A. Artists will have free range on their illustrations, so long as they follow the theme of the zine!

    A. All final pieces will be: Single page/Comic: 2500px x 3000px 300dpi Spread(not guaranteed to allow spreads):

**Q. Are you looking for examples of art?**

    A. Art examples can be sent once contributor applications open up, to get an understanding on what the examples should entail, please look through the guidelines thoroughly.

**Q. Will canon/implied ships be allowed?**

    A. Ships are fine as long as the piece is not focused on it. Incest, pedophilic, etc ships are definitely not allowed.

**Q. Are you allowing mods to apply as artists?**

    A. Yes of course! However, if you are accepted as one there is no guarantee you will be accepting as the other. You will go through the same voting process as everyone else.

**Q. Are OCs allowed in the zine!**

    A. Yes, OCs can be in final pieces, however, they should not be the focus. They can be in the background for example.

**Q. How big will this project be, roughly? How many mods are you planning on accepting and how many artists do you expect to include?**

A. The goal is to have at least 3 mods total; A social media mod, a server mod, and a graphics mod. As for the amount of artists, the hope is to have 50 - 100 artists total, however, it is all dependent on the amount of applications received, and their quality/dedication to this project.
