Center & Station Teaching to Support Student Needs K-6 NEW	Nicole Foley	January: 13th, 20th, 27th February: 3rd, 10th Wednesdays 3:30 p.m. - 5:30 p.m. Sparke - Room 224	This course is designed for K–6 educators. This hands-on course equips you with practical strategies to analyze student data, revamp existing center systems, and implement effective station teaching. It will support you in delivering high-yield, small-group instruction that meets every learner's needs.	Center2027 NO	https://pg-plm-ui.pg-prod.frontlineeducation.com/district-catalog/5508928

Inclusive Classrooms: Navigating Special Education 5-12 NEW	Elizabeth Thielemann	MMS Library 2:45-4:15 Mondays March 1, 8, 15, 22, 30	This course is designed for special education and general education teachers in grades 5-12 seeking to enhance their understanding and practical skills in supporting students with disabilities. Recognizing the diverse needs of both educators and students, this course will empower participants with essential knowledge, effective strategies, and collaborative approaches to foster an equitable and accessible learning environment. Similar to the individualization of the special education process, participants will choose from an emailed list of special education topics prior to the start date, and weekly course lessons will be tailored to the group's needs. Potential topics include (but are not limited to): Understanding Individualized Education Programs (IEPs), Differentiated Instruction Strategies, Using Visual Supports and Cues, Effective Classroom Accommodations, Assistive Technology Tools, Understanding 504 Plans vs. IEPs, Behavior Management Techniques, and Collaboration.
