CARLI used a test record that included all fields and subfields to get the default display fields in Primo.

Steps to see if your required MARC field is included in the default Primo VE configuration

1. MMS ID 991091179789406532;
2. CTRL-F to see if your required field is included. Does it have the right label?
3. Make suggestions about what to change using the following table
