

Akvelon Inc.

Position: DevOps/SDE

About us

Akvelon Inc (USA) works in the field of software engineering based on a variety of technologies. Our company is a member of the vendor program, which gives employees the opportunity to work with clients in the United States and other countries (**Microsoft, Facebook, Airbnb, Dropbox, Pinterest**, and many others). This is a great opportunity to learn from and work with leading engineers of world-renowned companies.

About project

We are currently seeking a highly skilled DevOps Engineer with expertise in TypeScript/Node.JS to join our team. In this role, you will be responsible for automating the lifecycle of applications across multiple platforms, including iOS, Android, Windows, and macOS.

You will utilize your experience in connecting repositories, building applications in the cloud, testing them on real devices, distributing them to beta testers and app stores, and monitoring real-world usage with crash and analytics data. Your contributions will be crucial in ensuring the quality and reliability of our products.

The ideal candidate should possess a passion for the latest technologies and tools and have a proven ability to work collaboratively with a team of talented developers and engineers. If you are seeking a challenging opportunity to make a significant impact on the industry, we invite you to apply.

Responsibilities

- 24/7 On-call Support for 1 week per 5 weeks (24/7 doesn't mean that an engineer needs to sit in front of a workstation)
- Bug fixing
- 2nd line of support for alerts and customer escalations for client's services
- Troubleshooting

Requirements

- Experience in the backend software development
- Experience with Node.js/JavaScript/Typescript
- Solid knowledge of Kusto
- Experience working with Linux, Mac and Windows
- Efficiency in PowerShell and Bash scripting
- Well-developed skills in troubleshooting
- Hand-on experience in Azure (mostly Azure DevOps)
- Ability to learn quickly
- Strong written and verbal communication skills in English and a desire to create an open and collaborative team culture

Nice to have

- Kubernetes basic experience
- SQL basic experience
- Experience with Ruby

We offer

- Entering a professional level equivalent to world standards
- High wages (we are guided by the candidate's wishes and level)
- LCA with dentistry
- An excellent team of high-level professionals one can learn from
- Flexible working hours

Please send your resume / questions to our mail (career@akvelon.com).

We will be glad to see you in our team!
