

4/02 --Third-quarter grades turned in earlier this week. Should come to you soon, I believe. If there are changes and issues we will take care of remotely.

3/19 Confusing times. As far as we know, we will still be working on grades and inputting them at the end of the month. *As far as we know.*
Oh what a time we are in.

3/13 Third quarter ended Friday. Breathe easy! There will be plenty of time after spring break to reconcile grades when everyone returns. Teachers are working diligently over spring break to catch up and put in all the work and make grading reports accurate and reflective of your work. So, stay tuned!

Gradebook questions: So many kids have been absent over the past month--one day 18 eighth-graders--with many having to make up quizzes and/or missed homework. So, I am a little behind in updating the gradebook as I try to catch up with all those kids. Please understand if your student's grade is not quite up to date. It will be. I promise.
