

2020 Event Formats

Every year, Spud likes to do something different with his events. **In 2020, every event Spud runs will have a list-building restriction applied to it.** Formats for the remainder of the ITS season are being posted in advance so that players have plenty of time to plan and practice!

Important Note: These formats are not intended to punish players with smaller collections. The ITS rules explicitly allow reasonable proxies, so feel free to proxy models where needed to meet the list-building restrictions of any event you're interested in attending!

- **January: No Fireteams**

- **Players cannot form any type of fireteam.**
- *January 26th @ Torchlight*

- **February: List Randomizer**

- **All lists will be built with the Random List Generator:**
<http://www.infinityutilities.de/randomlistgenerator>
- To ensure that no-one randomizes repeatedly until a perfect list comes up, Spud will generate the lists for all participants. Either poke Spud on Facebook or e-mail him at captainspud@gmail.com, specifying the faction or sectorial you'd like to use, and he'll reply back with four army lists for you to choose from. Pick the two that seem most playable or that best align to your collection, and use those at the event.
- You may rearrange the combat groups of the lists you receive, as long as all of the same units and profiles are retained.
- There's no time limit on requesting your lists. Request them now or the day before the event.
- *February 16th @ Black Knight*

- **March: Little Guns**

- **All army lists are limited to 2SWC.**
- This limit can be increased by taking a Lieutenant model with a + SWC value, as normal.
- *March 15th @ Torchlight*

- **April: 3x3 Revised**

- For each of your army lists, choose three troop types (*LI, MI, HI, REM, TAG, SK, WB*). **Your list must include 3 models of each chosen troop type**, and up to one

model of any troop type of your choice (*which can be a 4th model of one of the chosen troop types*).

- This is counted on a per-model basis, *not* a per-purchase basis. E.g.,
 - **Uberfellkommandos:** The Chimera is one WB, and each Pupnik you buy is one WB.
 - **Auxilia:** The Auxilia is one LI, and the auxbot is one REM.
 - **Mirage-5:** Margot is one HI, and Duroc is one WB
 - Perimeter weapons, Tinbots, etc. do not count as any troop type.
 - etc.
- The Limited Insertion modifier will apply-- all lists are limited to one Combat Group.
- You can choose different troop types for your two lists.
- *April 26th @ Black Knight*

● May - Lethal Spec-Ops

- Each army list may include a Spec-Ops model with a 12XP budget.
- **Players may not spend XP on skills or equipment that turn their Spec-Ops into specialists.** Violent upgrades only!
- *Date TBD @ Torchlight*

● June - Limited Insertion

- **All lists are limited to one Combat Group.**
- *Date TBD @ Torchlight*

● July - TAG Stomp

- **All army lists must include a TAG or a model with Heavyweight.**
- *Date TBD @ Black Knight*

● August - Celebrities

- **All lists must contain at least three character models.**
- Soldiers of Fortune is available, but only Character mercenaries may be taken through Soldiers of Fortune.
- *Date TBD @ Black Knight*
