Abstract

Abstract text goes here. The abstract should be a
single paragraph that summarises the content of the
article.

Keywords: aaa, bbb, ccc, ddd

Introduction

The main text of the article should appear here
with headings as appropriate. The main text of
the article should appear here with headings as
appropriate [1].

The main text of the article should appear here
with headings as appropriate. The main text of
the article should appear here with headings as
appropriate [2-3].

The main text of the article should appear here
with headings as appropriate. The main text of
the article should appear here with headings as
appropriate [4-7].

The main text of the article should appear here
with headings as appropriate. The main text of
the article should appear here with headings as
appropriate [8,10-12].

Experimental section

The main text of the article should appear here
with headings as appropriate. The main text of
the article should appear here with headings as
appropriate. The main text of the article should
appear here with headings as appropriate. The
main text of the article should appear here with
headings as appropriate.

Synthetic procedures, Materials and methods, Crystallography

The main text of the article should appear here
with headings as appropriate. (Figure 1).

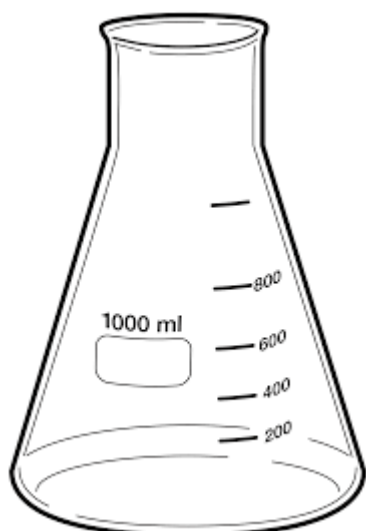

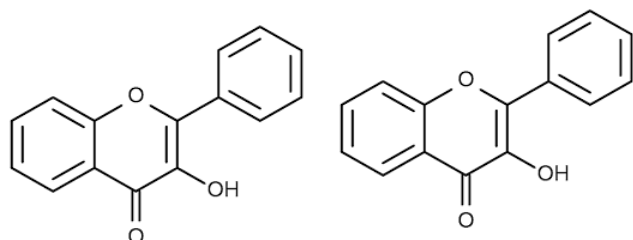

Figure 1. Erlenmeyer flask (Should be mentioned inside the paragraph)

Table 1. Data (Should be mentioned inside the paragraph)

Parameter 1	Parameter 2	Parameter 3	Parameter 4
-------------	-------------	-------------	-------------

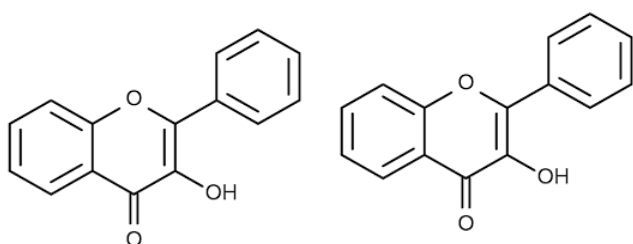

Results and discussion

The main text of the article should appear here with headings as appropriate. (Figure 2).
