100 THINGS - Rubric

Name(s) _____ _____ Period: _____

Overview: Construct a sculpture by yourself or with a partner (you will each need to complete this form) using 100 of the same item. Think about everyday objects that are easily accessible and how those objects can be transformed or presented to form a work of art that is 3D and utilizes space and form with particular attention to balance and unity.

Requirements:

- 100 items (no food, or money)
- Material matches concept
- Nothing is falling off
- 3D- Takes up space/Stands
- MUST effectively demonstrate balance (symmetrical or asymmetrical) and unity

	3 points	**2 points**	**1 point**
Demonstration of Balance and Unity (x2)	Project is complete and is obviously designed to reflect symmetrical or asymmetrical balance Entire project shows unity (artistic design that works together as a whole through visual relatedness)	Project is complete and attempts to reflect symmetrical or asymmetrical balance Most of project shows unity (artistic design that works together as a whole through visual relatedness)	Project does not (or shows minimal) symmetrical or asymmetrical balance Project does not seem to be united in any meaningful way (artistic design that works together as a whole through visual relatedness)
YOUR SCORE	What you think you should score: _____out of 6 MY SCORE: _____ out of 6		
Craftsmanship (x2)	Entire project is held together strongly and fits all requirements. Materials used to hold pieces together are not seen (unless that was part of the design) Project matches the detailed sketch well	Project is held together but may have some weak areas. Fits all requirements. Materials used to hold pieces together are mostly not seen (unless that was part of the design) Project and sketch are similar	Project has many weak areas. Project does not fit all requirements. Materials used to hold pieces together are very visible and detract from unity in the piece. Project and sketch do not match
YOUR SCORE	What you think you should score: _____out of 6 MY SCORE: _____ out of 6		
Creativity (x2)	"100 things" are unique. Finished product shows true creativity. Initial research is for inspiration and NOT for duplication.	"100 things" are beyond basic. Finished product is creative due to research. May be somewhat cliche	Finished product is a duplicate of something found online or by another student (in some cases this may be grounds for plagiarized work)
