

DS3 Mafia RPG - Catalyst THE NECRO RAPIST's Doc

Name: Ubermorph

Occupation: Necromorph

Description:

Necromorphs are extraordinarily aggressive; they attack any non-Necromorph being on sight, regardless of species or age. The sole purpose of this behavior is to spread the infection quickly. The Ubermorph was an advanced Necromorph encountered on Titan Station. Highly dangerous and apparently unique in its provenance, the Ubermorph and was utterly alien in appearance, a trait that set it apart from any other breed of Necromorph. The Ubermorph utilized its two enormous arms, each ending in three long claws, to impale, slash and mutilate its prey with ease. This creature's unique characteristic was its ability to regenerate lost tissue mass and bone at an extraordinarily rapid rate, making it virtually impossible to kill.

Objectives:

You must ensure the Marker won't be destroyed. Rush to the Marker Chamber, if you must, eliminate everyone who stands in your way in Public Sector in order to proceed to Government Sector. In Government Sector, eliminate everyone in order to proceed to Marker Chamber. There, you can Converge with the Marker in order to complete the Convergence Event

Weapon:

-

Day Phase Actions:

##KILL - you can kill $(-100 + (\text{number of spaced} * -25) + (\text{number of regenerated} * +25))$ hit points) one person, unless he has some armor or extra health. If you are spaced or hit by the weapon, you are disabled instantly, but you can regenerate next night.

Health Status/Max Health (Strength): Necromorph/175
(regenerating)

Converged: No You have not been Converged with Marker yet

Government Sector Access: You are safe in Marker Chamber unable to interact with outside
You're safe in Government Sector of the Station. You can't be harmed from outside though you're unable to interact with outside as well. You can't buy equipment anymore either.

Solar Array Access: No

Posting Gimmick/Restriction

As Necromorph, you are unable to post words or vote. You can grawl or post pictures though.

Other actions:

##CONVERGE - your body instantly converges with the Marker, completing the Convergence (this will harm everyone else in the Marker chamber -25% w/o armor penalty)

##END TURN

##REGENERATE - You can come back to life the next day with a stronger attack (+25%). If you were spaced, your attack will be weaker (-25%). After Convergence, Regeneration requires 3 extra actions from other players before it is complete, and you can no longer hide or get stronger.

Conditional Actions:

Ubermorph is released when Isaac attempts to hack EarthGov. Ubermorph can be destroyed only with a weapon capable of inflicting enough damage to overcome his total strength at once (e.g. Charged Solar Beam). Ubermorph gets stronger each time he is shot and regenerates, and weaker once he gets spaced and regenerates.

Sooooo with Camo, will he slowly lose the rest of his health or????????? Great!!!!!!! :)

Unless he gets healed.

ahahahahaah i might be safe tonight, no spacing pleaseeeeeeeeeeeeeeee (:

Poor Kam.... (:

So Close :(s

You can still finish him off tomorrow.

i might wait a little bit this time (:

Don't forget, if they attack you, you won't be able to attack till next day..

##KILL - you can kill (-75 hit points) one person, unless he has some armor or extra health. If you are spaced or hit by the weapon, you are disabled instantly, but you can regenerate next night.

Oh, NOW YOU TELL ME THAT IF I GET SHOT I CANT DO ANYTHING :| Hope he's dead now :3

Well if you start as "Unknown" (after regenerating), they can't target you. But let's say next day you live on without regenerating, they can target you.

wait, you don't update players health when they've gotten armor or extra health? :

Extra health yes, armor nope. But kam visited generalcamo the other day and he told everyone that he had bought armor, even I told everyone when you first attacked him yesterday that "his armor saved his life".

YES, MORE ATTACK STRENGTH RAWR.

They sure try hard :D

sooooooooooooo, Spoilers. how do they kill me?

The solar cannon can kill you if it's either level 2 (3 marines) or level 3 (4 marines). If your strength drops below 100 it can also kill you on level 1 (I never told you this).

They can also keep you spacing until your strength drops to zero (you knew this before). They can kill you by killing the Marker (there are more ways to destroy it - this one is

obvious due to Marker giving life to Necromorphs).

There's also Convergence, but that I'm not spoiling yet how it affects Necros.

Anyway, tomorrow, few players are leaving to government sector. You are staying in Public sector and you can only attack remaining players there.

You will also receive a friend tonight it seems.

When Convergence starts, every Necro can also go to Gov sector.

Okay Cool, Thanks, do i get a new friend today? :D

Soooooooooooo Can Garrus actually attack me or what? cos that would be shit. Okay cool, thanks! hahahaa, yeah just playing with the media tags, i'm using IE :

**Yeah, however i used to use Firefox, but it crashed all the time :\ made me mads :3 --
haha, i broke youtube links inside IPB :\ fixed the
linkss :) now they automagically load as https://
:D**

He can't attack you but you won't be able to communicate because you still don't have the Hive Mind.

Hmm not sure what you did, but it sure does fuck my browser ;p
Damn Chrome.

Overall utubes work best with Mozilla though it does crash a lot.

My IE never crashes with utubes vidoz. :3

IE is also the most unsecured browser :3

DAY 8

The Convergence has started. The only objective of Necromorphs is to clear each Sector before continuing to another. Every Necromorph Starts in Public Sector. Once the Public Sector has been cleared, they can advance to Government Sector. Once the Government Sector is cleared, they can enter the Marker Chamber.

Inside Marker, they can no longer attack, but they can Converge with the Marker, which will complete the Marker (at least 5 necromorphs are required).

Spaced souls can also help with the Convergence.

Updated list of Necromorphs can be found here: <http://i.imgur.com/clyF3.png>
Hive Mind is still not available at this point.

Hi. :D cmon man keep up with the day actions ~

Doc Updated.
yawn

i can't kill anybody in here can i? :\ - okay, so if i converge, and people do 3 other actions, i can regen and converge again? or i'm dead period :(.....
AWWWWWWWWWWWWWWWWWWWWWWWWW :{(

No, but you can converge with the marker and that will also damage everyone inside.
Dead period.
You can converge next turn.

okay so what happens when i'm shot, i can't do anything until 3 actions have been performed? oh he's in the marker chamber he can't shoot me. okay cool. he can't shoot me in the marker room can he? :\ oh okay.

Once you have free turn, and you are shot, you can regenerate and you have to wait until someone makes three actions. Exactly.

They can shoot you in the Marker chamber. But his shoot2 won't work regardless (other reason).

They ca shoot us but we can't kill them ? :\ that's gay :(wait if i converge than the rest of my necros converge than we ggwp their team yes?

Yep. That's how it works, though Converge action harms *everyone*.
At least four Necros who charge the marker can also eliminate everyone inside provided they won't use medkits.

and i need 5 necro's to fully charge the thingo. :(ohhhhhhhh ok will do bbl.

You don't need to kill them though, the objective is to complete the Convergence.

HIVE MIND IS NOW AVAILABLE -
