

A Toniebox is an innovative, audio player for kids designed to bring audio books, music, and learning to life for kids at all reading levels. Kids can control it all by themselves by pinching Toniebox's ears to start or stop it, skip tracks, or change volume. Plus, they easily choose their own stories by swapping Tonies (a.k.a. the characters) to and from the magnetic play pad on top which will play a story automatically. The Tonie characters currently available at Slayton Library are [listed here](#). If you need help with the Toniebox, start at their [official website](#).

Current Guidelines

- Must be 18+ to check out the Toniebox.
- Check-out period is 2 weeks.
- Limit of 3 Tonies per household at one time.

Tip: At home, keep the Tonies separate from other toys to avoid losing them.

- Return items with its original container and accessories.
- Return the Toniebox inside to the library desk, not the outside drop box.
- Tonie characters can be returned in the dropbox for fragile items.

Tip: Before returning to the library, double check for all Tonie parts! The kit will remain on your library account until all components are returned or any replacement fees are paid.
