

A goal achieved by me in the future.

I landed a client(s) and made money.

5000 dollars is mine goal.

This is the end goal.

\$What do I have to do to achieve this goal?

1. If I improve and get better at triggering emotions in the readers mind, I can make my client money and he will than pay me.
1. If I make more time free for copywriting I can spend more time as I work already effective as I can, I will make this goal much faster a reality.
1. If have multiple ways for clients to pay me, the universe may give me a chance.(maybe)
1. If I have a stronger mindset than my current one, I will be able to achieve this goal faster.
1. If I change my enviremont, I can get more momentum and I will be able to work more effective.

The real things

I need to be able to make that client at least 10× of the money I want to make.

So, I need to make a client at least 50.000 dollars.

I need to now do my outreach with a much cleaner path

I must not see my current mindset as a strong one, instead, Look at Professor Andrew, try beat him!!!!

Be a badass. The universe will help me change what I can't do now.

I WILL MAKE THIS DREAM POSSIBLE!
